USDA Extends Application Deadline for Dairy Margin Protection Program to June 22

The re-enrollment deadline for the Margin Protection Program (MPP) for Dairy has been extended until June 22, 2018.

The new and improved program protects participating dairy producers when the margin – the difference between the price of milk and feed costs – falls below levels of protection selected by the applicant.

The re-enrollment deadline was previously extended through June 8, 2018. The deadline is being extended a second time to ensure that dairy producers are given every opportunity to make a calculated decision and enroll in the program if they choose.

This will be the last opportunity for producers to take advantage of key adjustments Congress made to provisions of the MPP program under the Bipartisan Budget Act of 2018 to strengthen its support of dairy producers. USDA encourages producers contemplating enrollment to use the online web resource at www.fsa.usda.gov/mpptool to calculate the best levels of coverage for their dairy operation.

The next margin under MPP, for May 2018, will be published on June 28, 2018. Therefore, all coverage elections on form CCC-782 and the \$100 administrative fee, unless exempt, must be submitted to the County FSA Office no later than June 22, 2018. No registers

will be utilized, so producers are encouraged to have their enrollment for 2018 completed by COB June 22, 2018.

All dairy operations must make new coverage elections for 2018 during the re-enrollment period, even if the operation was enrolled during the previous 2018 signup. Coverage elections made for 2018 will be retroactive to January 1, 2018. MPP payments will be sequestered at a rate of 6.6 percent.

To learn more about the Margin Protection Program for dairy, contact your local USDA Farm Service Agency county office at offices.usda.gov or visit us on the Web at www.fsa.usda.gov.

USDA Resumes Continuous Conservation Reserve Program Enrollment

One-Year Extension Available to Holders of Many Expiring Contracts through Continuous Signup

As part of a 33-year effort to protect sensitive lands and improve water quality and wildlife habitat on private lands, the U.S. Department of Agriculture (USDA) will resume accepting applications for the voluntary [Conservation Reserve Program \(CRP\)](#). Eligible farmers, ranchers, and private landowners can sign up at their local [Farm Service Agency \(FSA\)](#) office between June 4 and Aug. 17, 2018.

FSA stopped accepting applications last fall for the CRP continuous signup (excluding applications for the Conservation Reserve Enhancement Program (CREP) and CRP grasslands). This pause allowed USDA to review available acres and avoid exceeding the 24 million-acre CRP cap set by the 2014 Farm Bill. New limited practice availability and short sign up period helps ensure that landowners with the most sensitive acreage will enroll in the program and avoid unintended competition with new and beginning farmers seeking leases. CRP enrollment currently is about 22.7 million acres.

2018 Signup for CRP

For this year's signup, limited priority practices are available for continuous enrollment. They include grassed waterways, filter strips, riparian buffers, wetland restoration and others. [View a full list of practices](#).

FSA will use updated soil rental rates to make annual rental payments, reflecting current values. It will not offer incentive payments as part of the new signup.

USDA will not open a general signup this year, however, a one-year extension will be offered to existing CRP participants with expiring CRP contracts of 14 years or less. Producers eligible for an extension will receive a letter with more information.

CRP Grasslands

Additionally, FSA established new [ranking criteria](#) for [CRP Grasslands](#). To guarantee all CRP grasslands offers are treated equally, applicants who previously applied will be asked to reapply using the new ranking criteria. Producers with pending applications will receive a letter providing the options.

About CRP

In return for enrolling land in CRP, USDA, through FSA on behalf of the Commodity Credit Corporation (CCC), provides participants with annual rental payments and cost-share assistance. Landowners enter into contracts that last between 10 and 15 years. CRP pays producers who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat.

The new changes to CRP do not impact the Conservation Reserve Enhancement Program, a related program offered by CCC and state partners.

Producers wanting to apply for the CRP continuous signup or CRP grasslands should contact their USDA service center. To locate your local FSA office, visit <https://www.farmers.gov>. More information on CRP can be found at www.fsa.usda.gov/crp.

Eligibility for Nominations for the 2018 County Committee Elections

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) county committees are a critical component of the day-to-day operations of FSA and allow grassroots input and local administration of federal farm programs.

Committees are comprised of locally elected agricultural producers responsible for the fair and equitable administration of FSA farm programs in their counties. Committee members are accountable to the Secretary of Agriculture. If elected, members become part of a local decision making and farm program delivery process.

A county committee is composed of three to 11 elected members from local administrative areas (LAA). Each member serves a three-year term. To be eligible for nomination and hold office as a committee member or alternate, a person must fulfill each of the following requirements: (1) be a producer with an interest in farming or ranching operations, (2) participate or cooperate in any FSA program provided for by law, (3) be a U.S. citizen, (4) be of legal voting age, (5) meet the basic eligibility requirements, and (6) reside in the county or multi-county jurisdiction in which they will be serving.

All nomination forms for the 2018 election must be postmarked or received in the local USDA service center by Aug. 1, 2018. For more information on FSA county committee elections and appointments, refer to the FSA fact sheet: Eligibility to Vote and Hold Office as a COC Member available online at: www.fsa.usda.gov/elections.

ASKFSA

Are you looking for answers to your FSA questions? Then ASK FSA at askfsa.custhelp.com.

AskFSA is an online resource that helps you easily find information and answers to your FSA questions no matter where you are or what device you use. It is for ALL customers, including underserved farmers and ranchers who wish to be enrolled in FSA loans, farm, and conservation programs.

Through AskFSA you can:

- Access our knowledge base 24/7
- Receive answers to your questions faster
- Submit a question and receive a timely response from an FSA expert
- Get notifications when answers important to you and your farming operation are updated

Customize your account settings and view responses at any time.

FSA Releases Signup Information for Tree Assistance Program

USDA's Farm Service Agency recently released signup information for the [Tree Assistance Program](#), a nationwide program that provides orchardists and nursery tree growers with cost share assistance to replant eligible trees, bushes, and vines following a natural disaster.

The Bipartisan Budget Act of 2018 prescribed several changes to the program, including the removal of the \$125,000 per person and legal entity payment limitation. The [notice](#) outlined when producers should file applications for any recent losses, given the changes to the program.

Eligible producers should file for TAP assistance by the later of these two dates:

- 90 days of the disaster or when damages from the disaster are noticed; or
- 60 days after the regulation is published on the Federal Register later this summer.

The following producers can file applications:

- Producers who did not previously apply for TAP for 2017 or 2018 losses; and
- Producers who had applied and received an adverse determination that their 2017 or 2018 TAP application was filed late.

Additionally, producers with 2017 losses can also file an application or revise an original application because of the changes made through the Act.

For more information on TAP, producers should contact their [local USDA service center](#).

USDA Reopens Application Period for Producers Recovering from Cattle Loss, Other Disasters

Signup Begins June 4 for Livestock Indemnity Program and Emergency Assistance for Livestock, Honey Bees, and Farm-raised Fish

The U.S. Department of Agriculture (USDA) will begin accepting disaster assistance program applications on June 4 from agricultural producers who suffered livestock, honeybees, farm-raised fish and other losses due to natural disasters.

USDA's [Farm Service Agency](#) (FSA) is reopening the application period for two disaster assistance programs in response to statutory changes made by Congress earlier this year.

Beginning June 4, FSA will accept new applications for losses for calendar year 2017 or 2018 filed under the [Livestock Indemnity Program](#) (LIP) or [Emergency Assistance for Livestock, Honey Bees, and Farm-raised Fish Program](#) (ELAP). Producers who already submitted applications and received decisions on their applications for these years do not need to file again, but they can reapply if they have additional losses or their application was disapproved because it was filed late.

In February, Congress passed the Bipartisan Budget Act of 2018, which made several changes to these two disaster programs, including:

- Removing ELAP's \$20 million fiscal year funding cap, enabling FSA to pay producers' 2017 applications in full and their 2018 applications as soon as they are approved.
- Removing the per-person and legal entity annual program payment limitation of \$125,000 for LIP for 2017 and future years. (The income limitation applies as it did before, meaning producers with an adjusted gross income of more than \$900,000 are not eligible.)
- Changing LIP to allow producers to receive a payment for injured livestock that are sold for a reduced price due to an eligible event. Previously, the program only covered financial loss for livestock death above normal mortality.

Producers interested in LIP or ELAP should contact their [local USDA service center](#). To apply, producers will need to provide verifiable and reliable production records and other information about their operation.

Drought, wildfires and other disasters continue to impact farmers and ranchers, and LIP and ELAP are two of many programs available through USDA to help producers recover. Learn more at <https://www.usda.gov/disaster>.

Producers are Encouraged to Report Prevented Planting and Failed Acres

USDA Farm Service Agency (FSA) reminds producers to report prevented planting and failed acres in order to establish or retain FSA program eligibility for some programs.

Producers should report crop acreage they intended to plant, but due to natural disaster, were prevented from planting. Prevented planting acreage must be reported on form CCC-576, Notice of Loss, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

Contact your local FSA office for a list of final planting dates by crop.

If a producer is unable to report the prevented planting acreage within the 15 calendar days following the final planting date, a late-filed report can be submitted. Late-filed reports will only be accepted if FSA conducts a farm visit to assess the eligible disaster condition that prevented the crop from being planted. A measurement service fee will be charged.

Additionally, producers with failed acres should also use form CCC-576, Notice of Loss, to report failed acres.

Producers of hand-harvested crops must notify FSA of damage or loss through the administrative County Office within 72 hours of the date of damage or loss first becomes apparent. This notification can be provided by filing a CCC-576, email, fax or phone. Producers who notify the County Office

by any method other than by filing the CCC-576 are still required to file a CCC-576, Notice of Loss, within the required 15 calendar days.

For losses on crops covered by the Non-Insured Crop Disaster Assistance Program (NAP), producers must file a Notice of Loss within 15 days of the occurrence of the disaster or when losses become apparent. Producers must timely file a Notice of Loss for failed acres on all crops including grasses.

USDA Partners with Texas A&M to Help Veterans Seeking Agriculture Loans and Careers

USDA announced a partnership between the U.S. Department of Agriculture (USDA) and Texas A&M's AgriLife Extension Service to help military veterans obtain loans and pursue careers as farmers and ranchers. Secretary Perdue joined local dignitaries, members of the Armed Forces, veterans, and community leaders at the Dallas Farmers Market to unveil the new pilot program.

USDA's [Farm Service Agency](#) (FSA) is collaborating with AgriLife Extension Service on the pilot, which is part of the Texas A&M Battleground to Breaking Ground project. The program makes it easier for veterans to meet federal requirements to get FSA direct [farm ownership](#) loans, which can help provide access to land and capital.

The pilot program, which will include 15 to 18 veterans, will roll out in three phases: an introductory workshop, a business planning curriculum, and a production curriculum over a period of 12 to 18 months.

Typically, loan applicants must participate in the business operations of a farm for at least three years during a 10-year period. However, as part of this pilot program, participants can combine the certificate they receive with their military leadership or management experience to satisfy this requirement. According to the U.S. Department of Labor, approximately 45 percent of armed service members are from rural America.

Pilot program applications will be accepted from interested veterans between June 15 and July 20, 2018, until 11 p.m. central standard time, [apply here](#). For more information about USDA programs, visit newfarmers.usda.gov/veterans or <https://www.farmers.gov>.

To learn about other ways USDA is supporting veterans, visit <https://www.usda.gov/our-agency/initiatives/veterans>, and watch <https://www.youtube.com/watch?v=OAeLqXHUU3w>.

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien

- Be 10 years to 20 years of age
- Comply with FSA's general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.

Stop by the county office for help preparing and processing the application forms.
