## Financial Assistance Application Process Opens for USDA Farm Loan Borrowers Who Have Faced Discrimination

Today, the U.S. Department of Agriculture (USDA) announced the opening of the financial assistance application process for eligible farmers, ranchers, and forest landowners who experienced discrimination in USDA farm lending programs prior to January 2021. Section 22007 of the Inflation Reduction Act (IRA) directs USDA to provide this assistance. Since the law's passage, USDA has worked diligently to design the program in accordance with significant stakeholder input.

The program website, [22007apply.gov](https://22007apply.gov), is now open. The website includes an English-

and Spanish-language application that applicants can download or submit via an e-filing portal, information on how to obtain technical assistance in-person or virtually, and additional resources and details about the program.

Farmers, ranchers, and forest landowners who experienced discrimination by USDA in its farm loan programs prior to January 1, 2021 and/or are currently debtors with assigned or assumed USDA farm loan debt that was the subject of USDA discrimination that occurred prior to January 1, 2021, are eligible for this program.

To apply, borrowers have the option to apply via the e-filing portal at [22007apply.gov](https://22007apply.gov) or submit paper-based forms via mail or in-person delivery to the program's local offices. The application process will be open from July 7 to October 31, 2023. Under the planned timeline, applications will be reviewed in November and December, with payments reaching recipients soon thereafter. Importantly, applicants should know that the application process is not on a first come, first served, basis. All applications received or postmarked before the October 31 deadline will be considered.

To support producers throughout the application process, USDA is ensuring that organizations with extensive experience conducting outreach to farm organizations are able to support individuals who may be eligible for the program. These groups include [AgrAbility](#), [Farmer Veteran Coalition](#), [Farmers' Legal Action Group](#), [Federation of Southern Cooperatives](#), [Intertribal Agriculture Council](#), [Land Loss Prevention Program](#), [National Young Farmers Coalition](#), and [Rural Coalition](#).

Vendors operating four regional hubs are also providing technical assistance and working closely with these and other community-based organizations to conduct outreach using digital and grassroots strategies, to ensure potential applicants are informed about the program and have the opportunity to apply. These hubs are operating a network of brick-and-mortar program offices and will conduct extensive outreach about the program. Windsor Group serves farmers in the eastern regions of the U.S. and Analytic Acquisitions serves the western regions. A national administrator, Midtown Group, is responsible for program oversight and integrity, and will lead a national call-center, operate the application website - [22007apply.gov](https://22007apply.gov), which is now open – and review and process applications and payments. All vendors have experience in professional services, supporting government contracts, and complex program operations.

On March 1, 2023, USDA shared initial [details on how the Section 22007 program will work](#), including that the Inflation Reduction Act specifies the Secretary of Agriculture is responsible for providing this assistance through qualified nongovernmental entities, under standards set by USDA. USDA entered into agreements with vendors and cooperators in May.

In addition to the Discrimination Financial Assistance Program (DFAP) opening today, the Inflation Reduction Act also created several other programs that are helping USDA rebuild trust, address systemic issues and improve service to people who may have been underserved by USDA in the past. Information about USDA's equity agenda and progress is available at [www.usda.gov/equity](https://www.usda.gov/equity).

In standing up this program, USDA has become aware of some lawyers and groups spreading misleading information about the discrimination assistance process, pressuring people to sign retainer agreements, and asking people to fill out forms with private and sensitive information. As of today, the official application process has begun and filling out an application is **free**.

No attorneys' fees will be paid to applicants or their counsel by USDA or by any other

agency or department of the United States. The amount of financial assistance will not be increased for those claimants who are represented by an attorney. Applicants are not required to retain an attorney. USDA, the national administrator, and the regional hub vendors will neither recommend that any applicant retain counsel or retain a specific attorney or law firm, nor discourage an applicant from obtaining counsel or using a specific attorney or law firm. For more information, read our [fact sheet about the program timeline and ways to protect against possible scams](#).

USDA touches the lives of all Americans each day in so many positive ways. Under the Biden-Harris Administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, promoting competition and fairer markets for all producers, ensuring access to safe, healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate-smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America. To learn more, visit [www.usda.gov](http://www.usda.gov)

## Biden-Harris Administration Announces Intended Investment of Approximately \$300 Million in 50 Projects Increasing Land, Capital, and Market Access for Underserved Producers

The U.S. Department of Agriculture (USDA) today announced its selection of 50 projects for potential award, totaling approximately \$300 million. These innovative projects will help improve access to land, capital, and markets for underserved farmers, ranchers, and forest landowners. The Increasing Land, Capital, and Market Access (Increasing Land Access) Program, which is funded by President Biden's Inflation Reduction Act, works to increase access to farm ownership opportunities, improve results for those with heirs' property or fractionated land, increase access to markets and capital that affect the ability to access land, and improve land ownership, land succession and agricultural business planning.

Examples of selectees for potential award include:

- **Community Development Corporation of Oregon** will work to provide long term and sustainable land access to disadvantaged refugee and immigrant beginning farmers in Oregon's east Multnomah and Clackamas counties. A few of the goals of the project are to purchase the currently rented farm, reduce the net cost of the land through a conservation or working lands easement, and provide an equitable and engaging process of education and training about cooperative land ownership, finance concepts, and related USDA programs.
- **The Menominee Indian Tribe of Wisconsin** will work to establish an equity capital fund to provide support for Tribal producers' land, equipment, and operational needs. Additionally, this project will work to provide targeted technical assistance to Tribal producers in developing comprehensive farm and food business plans,

including conservation plans to support expanded production and access to the full suite of USDA and other support resources.

- **Workin' Rootz** will work to increase access to land and capacity-building at five urban farms/community market gardens in Detroit which include Workin' Roots Farm, Love n' Labor, Foster Patch Community Garden, Love Earth Herbal, and Urban Bush Sistahs. These farms will serve as resource hubs by sharing infrastructure (tiller, lawn tractor, wash and pack, cooler storage, etc.) with other urban farmers and gardeners in their prospective neighborhoods.
- **Maine Farmland Trust** will work with low-income farmers on access to low-interest capital for land purchase or business operations, farm upgrades and infrastructure investments that promote viability, technical assistance in the areas of real estate and business planning, and more.
- **Alabama A&M University, in collaboration with four other 1890 land grant universities (Southern University, Alcorn State University, Fort Valley State University, and Tennessee State University) and many other local organizations**, will provide delivery of technical assistance to underserved farm populations in chronically and economically depressed communities of Alabama, Tennessee, and Mississippi to ensure the success of existing farmers and ranchers and to rapidly increase the numbers of small farm operators in the targeted communities.

The tentative selectees include national, regional, and local projects that cover 40 states and territories including Washington D.C., Puerto Rico, and the U.S. Virgin Islands. USDA will work with the selected applicants to finalize the scope and funding levels in the coming months.

### **Environmental Assessment**

These projects will likely result in the purchase of land, construction of farm infrastructure and other activities that could have potential impacts on environmental resources. USDA has developed a Programmatic Environmental Assessment for the Increasing Land Access Program to evaluate the program's overarching environmental impacts as they relate to the National Environmental Policy Act.

The environmental assessment is available [online for public review](#). USDA is requesting comments on the program's potential impact on the environment. The feedback will be incorporated into the final assessment, as appropriate, prior to a decision.

USDA will consider comments received by Friday, July 14, 2023, at 5 p.m. EDT. Comments received after that date will be considered to the extent possible. Comments may be submitted:

- Electronically at: [Access@usda.gov](mailto:Access@usda.gov)
- By mail at: Attn: Michael Mannigan, Grants Management Specialist, U.S. Department of Agriculture, Farm Service Agency, Outreach Office, 1400 Independence Ave., S.W., Washington, DC, 20250-0506

For more information, contact Michael Mannigan at [Land.Access@usda.gov](mailto:Land.Access@usda.gov). Persons with disabilities who require alternative means for communication should contact the USDA Target Center at (202) 720-2600 (voice).

### **More Information**

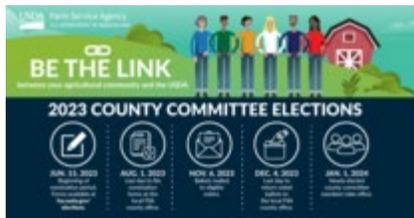

The Increasing Land Access Program was [originally announced in August 2022](#) as part of

a broader investment to help ensure underserved producers have the resources, tools, programs and technical support they need to succeed and is being funded by the Inflation Reduction Act.

The Increasing Land Access Program is part of USDA's commitment to equity across the Department and steps it has taken under Secretary Vilsack's direction to improve equity and access, eliminate barriers to its programs for underserved individuals and communities, and build a workforce more representative of America. Earlier in the year, the [USDA Equity Commission](#), which is comprised of independent members from diverse backgrounds, released its interim recommendations to remove barriers to inclusion and access at USDA. The program is also an important component of the Department's and President Biden's vision to [Advance Racial Equity and Support for Underserved Communities Through the Federal Government](#).

USDA touches the lives of all Americans each day in so many positive ways. In the Biden-Harris administration, USDA is transforming America's food system with a greater focus on more resilient local and regional food production, fairer markets for all producers, ensuring access to safe, healthy and nutritious food in all communities, building new markets and streams of income for farmers and producers using climate smart food and forestry practices, making historic investments in infrastructure and clean energy capabilities in rural America, and committing to equity across the Department by removing systemic barriers and building a workforce more representative of America. To learn more, visit [usda.gov](https://usda.gov).

## Farm Service Agency Now Accepting Nominations for Farmers and Ranchers to Serve on Local County Committees

The U.S. Department of Agriculture (USDA) is now accepting nominations for county committee members for elections that will occur later this year. Additionally, USDA's Farm Service Agency (FSA) is unveiling a new GIS tool to make it easier for producers to participate in the nomination and election processes

for county committee members, who make important decisions on how federal farm programs are administered locally.

All nomination forms for the 2023 election must be postmarked or received in the local FSA office by Aug. 1, 2023.

Elections will occur in certain Local Administrative Areas (LAA) for members. LAAs are elective areas for FSA committees in a single county or multi-county jurisdiction and they may include LAAs that are focused on an urban or suburban area.

Customers can locate their LAA through a new GIS locator tool available at [fsa.usda.gov/elections](https://fsa.usda.gov/elections).

Agricultural producers may be nominated for candidacy for the county committee if they:

- Participate or cooperate in a USDA program; and
- Reside in the LAA that is up for election this year.

A cooperating producer is someone who has provided information about their farming or ranching operation to FSA, even if they have not applied or received program benefits. Individuals may nominate themselves or others and qualifying organizations may also nominate candidates. USDA encourages minority producers, women and beginning farmers or ranchers to nominate, vote and hold office.

Nationwide, more than 7,700 dedicated members of the agricultural community serve on FSA county committees. The committees are made up of three to 11 members who serve three-year terms. Committee members are vital to how FSA carries out disaster programs, as well as conservation, commodity and price support programs, county office employment and other agricultural issues.

### **Urban and Suburban County Committees**

The 2018 Farm Bill directed USDA to form urban county committees as well as make other advancements related to urban agriculture, including the establishment of the Office of Urban Agriculture and Innovative Production. FSA established county committees specifically focused on urban agriculture. The urban county committees will work to encourage and promote urban, indoor and other emerging agricultural production practices. Additionally, the new county committees may address areas such as food access, community engagement, support of local activities to promote and encourage community compost and food waste reduction.

Urban committee members are nominated and elected to serve by local urban producers in the same jurisdiction. Urban county committee members will provide outreach to ensure urban producers understand USDA programs and serve as the voice of other urban producers and assist in program implementation that support the needs of the growing urban community.

### **County committees for urban agriculture are located in 17 cities across the U.S.**

#### **More Information**

Producers should contact their local FSA office today to register and find out how to get involved in their county's election, including if their LAA is up for election this year. To be considered, a producer must be registered and sign an [FSA-669A](#) nomination form. Urban farmers should use an Nomination forms and other information about FSA county committee elections are available at [fsa.usda.gov/elections](https://fsa.usda.gov/elections).

Election ballots will be mailed to eligible voters beginning Nov. 6, 2023.

## **Deadline July 26 to Apply for Organic Dairy Marketing Assistance**

The Organic Dairy Marketing Assistance Program (ODMAP) was created to assist certified organic dairy producers facing a unique set of challenges in recent years, including higher costs attributed to the pandemic and drought conditions across the country.

USDA's Farm Service Agency (FSA) is providing financial assistance for a producer's projected marketing costs in 2023 based on 2022 costs. ODMAP provides a one-time cost-share payment, based on marketing costs, on pounds of organic milk marketed in the 2022 calendar year.

Organic dairy producers should apply by July 26, 2023 at their local USDA Service Center.

---

## USDA Announces New Steps to Enhance Organic Markets and Support Producers

The USDA is taking additional steps as part of its commitment to strengthen the market for domestically grown organic goods, and to support producers seeking organic certification. These funding opportunities are part of the U.S. Department of Agriculture's (USDA) [Organic Transition Initiative](#), launched in fall 2022, which is a suite of offerings to help existing organic farmers and those transitioning to organic production and processing.

Consumer demand for organically produced goods surpassed \$67 billion in 2022, and multi-year trends of strong growth in the sector provide market incentives for U.S. farmers across a broad range of products. However, through public comment and listening sessions USDA has heard that producers may be less willing to commit to the three-year transition to organic certification because of risks related to inadequate organic processing, storage, and handling capacity, cost barriers due to limited markets for rotational crops, a lack of certainty about market access, and insufficient supply of certain organic ingredients. The organic livestock and processed product markets depend heavily on imported agricultural products for feed grains and key ingredients. These are longstanding market issues that were brought into sharp focus due to the impacts of the pandemic and international conflicts in critical overseas organic supply regions, resulting in limitations on certain domestic organic products in the face of rising demand.

### Cost Share for Organic Certification

As part of USDA's broader effort to support organic producers and in response to stakeholder feedback, this year the Farm Service Agency increased the cost share amount under the [Organic Certification Cost Share Program](#) (OCCSP), which helps organic producers cover organic certification costs, to the maximum amount allowed by statute.

Specifically, FSA will cover up to 75% of costs associated with organic certification, up to \$750 for crops, wild crops, livestock, processing/handling and state organic program fees (California only). OCCSP will cover costs incurred from Oct. 1, 2022, through Sept. 30, 2023.

FSA begins accepting applications for OCCSP Monday, May 15. Applications are due Oct. 31, 2023. To apply, producers and handlers should contact the FSA at their local [USDA Service Center](#). As part of completing the OCCSP application, producers and handlers will need to provide documentation of their organic certification and eligible expenses. Organic producers and handlers may also apply for OCCSP through participating state departments of agriculture.

FSA is also accepting applications from state departments of agriculture to administer

OCCSP. FSA will post a synopsis of the funding opportunity on grants.gov and will send more information to all eligible state departments of agriculture. Additional details can be found on the [OCCSP webpage](#). More information about these initiatives and more can be found at [farmers.gov/organic-transition-initiative](#).
