Alaska FSA State Director News - USDA Provides Funds to Geographically Disadvantaged Agricultural Producers Announces Enrollment for 2016

Program helps offset transportation costs for farmers and ranchers outside the contiguous U.S.

USDA will issue payments to agricultural producers enrolled in the Reimbursement Transportation Cost Payment Program (RTCP) for fiscal year 2015. USDA will provide \$1.9 million nationally to help offset transportation costs for geographically disadvantaged producers.

The 2014 Farm Bill reauthorized the program, which allows farmers and ranchers in Alaska, Hawaii and insular areas including the Commonwealth of Puerto Rico, Guam, American

Please contact your local FSA
Office for questions specific to
your operation or county.

Samoa, Commonwealth of Northern Mariana Islands, Federated States of Micronesia, Republic of the Marshall Islands, Republic of Palau and the Virgin Islands of the United States to recover transportation costs.

Payments are calculated based on the costs incurred for transportation of the agricultural commodity or inputs, subject to an \$8,000 limit per producer per federal fiscal year. The payments began on June 10, 2016.

Enrollment for fiscal year 2016 will begin on July 18, 2016, and end on Sept. 9, 2016. Applicants must submit their application to their administrative county FSA Office by Sept. 9, 2016. Applicants will have until Nov. 2, 2016, to provide supporting documentation. Payments for fiscal year 2016 will be made once all supporting documentation has been reviewed and approved.

For more information on RTCP, farmers and ranchers in the eligible areas can visit their FSA county office or the FSA website at www.fsa.usda.gov/pricesupport or www.fsa.usda.gov/ak. To find your local FSA county office, visit <http://offices.usda.gov>.

FSA County Committee Nomination Period in the Northern and Southern County Offices Now Open

The nomination period for the Northern and Southern FSA county committee began on June 15, 2016. Nomination forms must be postmarked or received in the Northern and Southern County FSA Office by close of business on Aug. 1, 2016.

County Committees are unique to FSA and allow producers to have a voice on federal farm program implementation at the local level.

To be eligible to serve on the FSA county committee, a person must participate or cooperate in an agency administered program, be eligible to vote in a county committee election and reside in the Local Administrative Area (LAA) where they are nominated. All producers, including women, minority and beginning farmers and ranchers are encouraged to participate in the nomination and election process.

This year, nominations and elections will be held in the following LAAs:

Northern County LAA-1

LAA-1 Includes the area that encompasses the following areas: North Slope, Northwest Arctic, Yukon-Koyukuk and Nome Census areas, as well as the Denali and Fairbanks North Star Borough.

Southern County LAA -2

LAA-2 Includes the municipality of Anchorage, Valdez/Cordova Census area south of Chugach Mtns. Kenai Peninsula Borough north of Kasilof River.

Producers may nominate themselves or others as candidates. Organizations representing minority and women farmers and ranchers may also nominate candidates. To become a nominee, eligible individuals must sign form FSA-669A. The form and more information about county committee elections is available online at: www.fsa.usda.gov/elections.

Elected county committee members serve a three-year term and are responsible for making decisions on FSA disaster, conservation, commodity and price support programs, as well as other important federal farm program issues. County committees consist of three to 11 members.

FSA will mail election ballots to eligible voters beginning Nov. 7. Ballots are due back in the Northern and Southern County Office by mail or in person no later than Dec. 5, 2016. All newly elected county committee members and alternates will take office January 1, 2017.

For more information about county committees, please contact the Northern County FSA office at 907-895-4242 and the Southern County FSA office at 907-761-7754 or visit www.fsa.usda.gov/elections.

USDA's Building Blocks for Climate Smart Agriculture & Forestry

The U.S. Department of Agriculture announced a comprehensive and detailed approach to support farmers, ranchers, and forest land owners in their response to address the causes of climate change in April 2015. The framework consists of 10 building blocks that span a range of technologies and practices to reduce greenhouse gas emissions, increase carbon storage, and generate clean renewable energy through mitigation.

USDA's strategy focuses on climate-smart practices designed for working production systems that provide multiple economic and environmental benefits in addition to supporting resilience to extreme weather, reduced emissions and increased carbon storage.

Through this comprehensive set of voluntary programs and initiatives spanning its programs, USDA expects to reduce net emissions and enhance carbon sequestration by over **120 million metric tons** of CO₂ equivalent (MMTCO₂e) per year – about 2% of economy-wide net greenhouse emissions – by 2025. That's the equivalent of taking **25 million cars** off the road, or offsetting the emissions produced by powering nearly **11 million homes** last year.

For more information on the Building Blocks for Climate Smart Agriculture and Forestry click the following link: <http://www.usda.gov/documents/climate-smart-fact-sheet.pdf> . For additional information on ways to consider greenhouse gases when managing land, refer to the USDA Climate Hub webpage: <http://www.climatehubs.oce.usda.gov/>.

Farmers to Receive Documentation of USDA Services

Farm Service Agency (FSA) reminds agricultural producers that FSA provides a receipt to customers who request or receive assistance or information on FSA programs.

The 2014 Farm Bill requires a customer receipt to be issued for any agricultural program assistance requested from FSA, the National Resources Conservation Service (NRCS) and Rural Development (RD). Receipts include the date, summary of the visit and any agricultural information, program and/or loan assistance provided to an individual or entity. Electronic receipts for acreage reports will begin on August 1, 2016.

A service is any information, program or loan assistance provided whether through a visit, email, fax or letter.

USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit www.fsa.usda.gov/microloans.

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, visit www.fsa.usda.gov/farmloans.

USDA Unveils New Improvement to Streamline Crop Reporting

Update Lets Farmers and Ranchers Report Common Acreage Information Once

Farmers and ranchers filing crop acreage reports with the Farm Service Agency (FSA) and participating insurance providers approved by the Risk Management Agency (RMA) now can provide the common information from their acreage reports at one office and the information will be electronically shared with the other location.

This new process is part of the USDA Acreage Crop Reporting Streamlining Initiative (ACRSI). This interagency collaboration also includes participating private crop insurance agents and insurance companies, all working to streamline the information collected from farmers and ranchers who participate in USDA programs.

Once filing at one location, data that's important to both FSA and RMA will be securely and electronically shared with the other location avoiding redundant and duplicative reporting, as well as saving farmers and ranchers time.

Since 2009, USDA has been working to streamline the crop reporting process for agricultural producers, who have expressed concerns with providing the same basic common information for multiple locations. In 2013, USDA consolidated the deadlines to 15 dates for submitting these reports, down from the previous 54 dates at RMA and 17 dates for FSA. USDA representatives believe farmers and ranchers will experience a notable improvement in the coming weeks as they approach the peak season for crop reporting later this summer.

More than 93 percent of all annual reported acres to FSA and RMA now are eligible for the common data reporting, and USDA is exploring adding more crops. Producers must still visit both locations to validate and sign acreage reports, complete maps or provide program-specific information. The common data from the first-filed acreage report will now be available to pre-populate and accelerate completion of the second report. Plans are underway at USDA to continue building upon the framework with additional efficiencies at a future date.

Farmers and ranchers are also reminded that they can now access their FSA farm information from the convenience of their home computer. Producers can see field boundaries, images of the farm, conservation status, operator and owner information and much more.

The new customer self-service portal, known as **FSAFarm+**, gives farmers and ranchers online access to securely view, print or export their personal farm data. To enroll in the online service, producers are encouraged to contact their local FSA office for details. To find a local FSA office in your area, visit <http://offices.usda.gov>.

Enrollment Period for 2016 USDA Safety Net Coverage Ends Aug. 1

Producers who chose coverage from the safety net programs established by the 2014 Farm Bill, known as the Agriculture Risk Coverage (ARC) or the Price Loss Coverage (PLC) programs, can visit FSA county offices through Aug. 1, 2016, to sign contracts to enroll in coverage for 2016.

Although the choice between ARC and PLC is completed and remains in effect through 2018, producers must still enroll their farm by signing a contract each year to receive coverage.

Producers are encouraged to contact their local FSA office to schedule an appointment to enroll. If a farm is not enrolled during the 2016 enrollment period, producers on that farm will not be eligible for financial assistance from the ARC or PLC programs should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program.

The two programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

USDA Expands Microloans to Help Farmers Purchase Farmland and Improve Property

Producers, Including Beginning and Underserved Farmers, Have a New Option to Gain Access to Land

The U.S. Department of Agriculture (USDA) is offering farm ownership microloans, creating a new financing avenue for farmers to buy and improve property. These microloans are especially helpful to beginning or underserved farmers, U.S. veterans looking for a career in farming, and those who have small and mid-sized farming operations.

The microloan program, which celebrates its third anniversary this week, has been hugely successful, providing more than 16,800 low-interest loans, totaling over \$373 million to producers across the country. Microloans have helped farmers and ranchers with operating costs, such as feed, fertilizer, tools, fencing, equipment, and living expenses since 2013. Seventy percent of loans have gone to new farmers.

Now, microloans will be available to also help with farm land and building purchases, and soil and water conservation improvements. FSA designed the expanded program to simplify the application process, expand eligibility requirements and expedite smaller real estate loans to help farmers strengthen their operations. Microloans provide up to \$50,000 to qualified producers, and can be issued to the applicant directly from the USDA Farm Service Agency (FSA).

This microloan announcement is another USDA resource for America's farmers and ranchers to utilize, especially as [new and beginning farmers and ranchers](#) look for the assistance they need to get started. To learn more about the FSA microloan program visit www.fsa.usda.gov/microloans, or contact your local FSA office. To find your nearest office location, please visit <http://offices.usda.gov>.
