### Alaska FSA State Director News

Welcome New year 2021. I for one am glad that 2020 is now behind us. Looking back there are many lessons to be learned and hopefully not repeated in future years. As we move forward into the new year, welcome the new challenges that come, some known and some unknown. Many are glad that some of the challenges of 2020 are past and I am hopeful many of those challenges never return.

One challenge to anticipate for the coming year is getting adequate supplies of needed inputs. One of my favorite garden seed suppliers announced a couple months ago, they would no longer have garden size seed packets to sell so they could preserve adequate supply for their commercial growers. Last year many

Southern Co Jan 26, 11 am

people had new interest in gardening, growing their own food and were proud to do so. Last spring, one nursery operator told me he sold out two weeks early. Had he known of the new interest in growing food in advance, he would have planned for a larger supply to sell. I anticipate the successes of these new gardeners will expand and many more will take on this "growing your own food" challenge in 2021.

From an economic perspective the new interest in growing food should grow the seed and nursery industry, making more supply available for the coming year. With my seed order for 2021, only one desired variety was not available and had to be substituted for another. I also had to get a new seed supplier as mentioned above and several competitors had individual varieties listed as sold out already. My order ended up coming from three different suppliers to get all my planned varieties and seeds. My hope is that all of you get your orders in early, adequate supplies are available and the coming year brings excellent growing weather.

My time to serve all of you from this agency is coming to a quick close. I have been able to travel around this great state, meet many of you, tour your farms, attend meetings with you, speak to you and promote Alaskan agriculture with you. It has been a personal honor to do so and be part of this wonderful industry. My interest in agriculture continues and will do so for many more years. I will see you again as a farmer like many of you rather than an agency official. Farewell.

---

## **Northern and Sothern County Farm Service Agency Announces County Committee Election Results**

Northern and Southern County U.S. Department of Agriculture (USDA) Farm Service Agency's (FSA) announced that County Committee elections are over and the ballots have been counted.

For the Northern County Farm Service Agency, Steven Helkenn of Delta Junction, AK was elected to represent local administrative area (LAA) 2. Connie Plagerman of Delta Junction, AK will serve as the first alternate.

For the Southern County Farm Service Agency, Janet Dinwiddie of Palmer, AK was elected to represent local administrative area (LAA) 3. Michael "Mike" Williams of Anchorage, AK will serve as the first alternate.

County committee members are a critical component of the day-to-day operations of FSA. They help deliver programs at the county level and work to serve the needs of local producers. All recently elected county committee members will take office in January 2021 and will be joining the existing committee. Every FSA office is required to have a county committee, which are made up of local farmers, ranchers and foresters elected by local producers.

County committee members impact the administration of FSA within a community by applying their knowledge and judgment to help FSA make important decisions on commodity support programs, conservation programs, indemnity and disaster programs, emergency programs and eligibility.

County committee members serve local producers through their decision making and help shape the culture of a local FSA office. They also ensure the fair and equitable administration of FSA farm programs in their counties and are accountable to the Secretary of Agriculture. Members conduct hearings and reviews as requested by the state committee, ensure underserved farmers, ranchers and foresters are fairly represented, make recommendations to the state committee on existing programs, monitor changes in farm programs and inform farmers of the purpose and provisions of FSA programs. They also assist with outreach and inform underserved producers, such as beginning farmers, ranchers and foresters, about FSA opportunities.

For more information, visit the FSA website at [fsa.usda.gov/elections](https://fsa.usda.gov/elections) or contact Lloyd Wilhelm, Northern County Executive Director/Farm Loan Manager, at (907) 895-4242, [lloyd.wilhelm@usda.gov](mailto:lloyd.wilhelm@usda.gov). or Erin Sturdivant, Southern County Executive Director/Farm Loan Manager, at (907) 761-7754 [erin.sturdivant@usda.gov](mailto:erin.sturdivant@usda.gov).

## USDA Supports U.S. Seafood Industry Impacted by Retaliatory Tariffs

U.S. Secretary of Agriculture Sonny Perdue announced that the U.S. Department of Agriculture (USDA) will provide approximately \$530 million to support the U.S. seafood industry and commercially licensed fishermen impacted by retaliatory tariffs from foreign governments. The funding will be provided through the Seafood Trade Relief Program and funded through the Commodity Credit Corporation (CCC), administered by USDA's Farm Service Agency (FSA).

The Seafood Trade Relief Program funding will support the following seafood types:

- Atka mackerel
- Crab (Dungeness, King, Snow, Southern Tanner)
- Flounder
- Geoduck
- Goosefish
- Herrings
- Lobster
- Pacific Cod
- Pacific Ocean Perch
- Pollock
- Sablefish
- Salmon

- Sole
- Squid
- Tuna
- Turbot

Fishermen can sign-up for relief through the program from September 14, 2020 to January 15, 2021. Fishermen should apply through their local USDA Service Center. To find your local Service Center, visit [www.farmers.gov/service-center-locator](http://www.farmers.gov/service-center-locator). The application can be found at [www.farmers.gov/seafood](http://www.farmers.gov/seafood).

### Call Center

A call center is available for fishermen who would like additional one-on-one support with the STRP application process. Please call 877-508-8364 to speak directly with a USDA employee ready to offer assistance. The call center can provide service to non-English speaking customers. Customers will select 1 for English and 2 to speak with a Spanish speaking employee. For other languages, customers select 1 and indicate their language to the call center staff.

Some USDA Service Centers in Alaska will begin allowing in-person office visits by appointment only. All Service Center visitors wishing to conduct business should call ahead to confirm the office's status and make an appointment before visiting. Visitors will be pre-screened based on health concerns or recent travel and must adhere to social distancing guidelines. Visitors will be required to wear a face covering during their appointment. Field work will continue with appropriate social distancing. Our program delivery staff will be in the office and work with our producers in person, by phone, by email, or by using other online tools. More information can be found at [farmers.gov/coronavirus](http://farmers.gov/coronavirus).

## USDA Announces CRP General Signup Ends February 12

Agricultural producers and private landowners interested in the [Conservation Reserve Program](#) (CRP) can sign up for the popular program until Feb. 12, 2021. The competitive program, administered by USDA's Farm Service Agency (FSA), provides annual rental payments for land devoted to conservation purposes.

Through CRP, farmers and ranchers establish long-term, resource-conserving plant species, such as approved grasses or trees, to control soil erosion, improve water quality and enhance wildlife habitat on cropland. Farmers and ranchers who participate in CRP help provide numerous benefits to their local region and the nation's environment and economy. CRP general signup is held annually and is competitive; general signup includes increased opportunities for wildlife habitat enrollment through the [State Acres For Wildlife Enhancement](#) (SAFE) initiative.

New cropland offered in the program must have been planted for four out of six crop years from 2012 to 2017. Additionally, producers with land already enrolled but expiring on Sept. 30, 2021, can re-enroll this year. The acreage offered by producers and landowners is evaluated competitively; accepted offers will begin Oct. 1, 2021.

Signed into law in 1985, CRP is one of the largest private-lands conservation programs in the United States. The program marked its [35-year anniversary](#) in December 2020. Program successes include:

- Preventing more than 9 billion tons of soil from eroding, which is enough soil to fill 600 million dump trucks.
- Reducing nitrogen and phosphorous runoff relative to annually tilled cropland by 95% and 85%, respectively.
- Sequestering an annual average of 49 million tons of greenhouse gases, equal to taking 9 million cars off the road.
- Creating more than 3 million acres of restored wetlands while protecting more than 175,000 stream miles with riparian forest and grass buffers, which is enough to go around the world seven times.
- Benefiting bees and other pollinators and increasing populations of ducks, pheasants, turkey, bobwhite quail, prairie chickens, grasshopper sparrows, and many other birds.

All USDA Service Centers are open for business, including those that restrict in-person visits or require appointments. All Service Center visitors wishing to conduct business with FSA, Natural Resources Conservation Service or any other Service Center agency should call ahead and schedule an appointment. Service Centers that are open for appointments will pre-screen visitors based on health concerns or recent travel, and visitors must adhere to social distancing guidelines. Visitors are also required to wear a face covering during their appointment. Our program delivery staff will continue to work with our producers by phone, email, and using online tools. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

## Quality Loss Assistance Now Available for Eligible Producers Affected by 2018, 2019 Natural Disasters

The U.S. Department of Agriculture's (USDA) Farm Service Agency (FSA) today announced that sign-up for the Quality Loss Adjustment (QLA) Program will begin Wednesday, Jan. 6, 2021. Funded by the Further Consolidated Appropriations Act of 2020, this new program provides assistance to producers who suffered eligible crop quality losses due to natural disasters occurring in 2018 and 2019. The deadline to apply for QLA is Friday, March 5, 2021.

### Eligible Crops

Eligible crops include those for which [federal crop insurance](#) or [Noninsured Crop Disaster Assistance Program](#) (NAP) coverage is available, except for grazed crops and value loss crops, such as honey, maple sap, aquaculture, floriculture, mushrooms, ginseng root, ornamental nursery, Christmas trees, and turfgrass sod.

Additionally, crops that were sold or fed to livestock or that are in storage may be eligible; however, crops that were destroyed before harvest are not eligible. Crop quality losses occurring after harvest, due to deterioration in storage, or that could have been mitigated, are also not eligible.

Assistance is based on a producer's harvested affected production of an eligible crop, which must have had at least a 5% quality loss reflected through a quality discount; or for forage crops, a nutrient loss, such as total digestible nutrients.

### Qualifying Disaster Events

Losses must have been a result of a qualifying disaster event (hurricane, excessive moisture, flood, qualifying drought, tornado, typhoon, volcanic activity, snowstorm, or wildfire) or related condition that occurred in calendar years 2018 and/or 2019.

Assistance is available for eligible producers in counties that received a qualifying Presidential Emergency Disaster Declaration or Secretarial Disaster Designation because of one or more of the qualifying disaster events or related conditions.

Lists of counties with Presidential Emergency Disaster Declarations and Secretarial Disaster Designations for all qualifying disaster events for 2018 and 2019 are available [here](#). For drought, producers are eligible for QLA if the loss occurred in an area within a county rated by the [U.S. Drought Monitor](#) as having a D3 (extreme drought) or higher intensity level during 2018 or 2019.

Producers in counties that did not receive a qualifying declaration or designation may still apply but must also provide supporting documentation to establish that the crop was directly affected by a qualifying disaster event.

To determine QLA eligibility and payments, FSA considers the total quality loss caused by all qualifying natural disasters in cases where a crop was impacted by multiple events.

### **Applying for QLA**

When applying, producers are asked to provide verifiable documentation to support claims of quality loss or nutrient loss in the case of forage crops. For crops that have been sold, grading must have been completed within 30 days of harvest, and for forage crops, a laboratory analysis must have been completed within 30 days of harvest.

Some acceptable forms of documentation include sales receipts from buyers, settlement sheets, truck or warehouse scale tickets, written sales contracts, similar records that represent actual and specific quality loss information, and forage tests for nutritional values.

### **Payments Calculations and Limitations**

QLA payments are based on formulas for the type of crop (forage or non-forage) and loss documentation submitted. Based on this documentation FSA is calculating payments based on the producer's own individual loss or based on the county average loss. More information on payments can be found on [farmers.gov/quality-loss](https://farmers.gov/quality-loss).

FSA will issue payments once the application period ends. If the total amount of calculated QLA payments exceeds available program funding, payments will be prorated.

For each crop year, 2018, 2019 and 2020, the maximum amount that a person or legal entity may receive, directly or indirectly, is \$125,000. Payments made to a joint operation (including a general partnership or joint venture) will not exceed \$125,000, multiplied by the number of persons and legal entities that comprise the ownership of the joint operation. A person or legal entity is ineligible for QLA payment if the person's or legal entity's average Adjusted Gross Income exceeds \$900,000, unless at least 75% is derived from farming, ranching or forestry-related activities.

### **Future Insurance Coverage Requirements**

All producers receiving QLA Program payments are required to purchase crop insurance or NAP coverage for the next two available crop years at the 60% coverage level or higher. Wildlife and

Hurricane Indemnity Program Plus (WHIP+) participants who already met the WHIP+ requirement to purchase crop insurance or NAP coverage are considered to have thereby met the requirement to purchase crop insurance or NAP coverage for QLA. If eligible, QLA participants may meet the insurance purchase requirement by purchasing [Whole-Farm Revenue Protection](#) coverage offered through USDA's Risk Management Agency.

### More Information

For more information, visit [farmers.gov/quality-loss](https://farmers.gov/quality-loss), or contact your local [USDA Service Center](#). Producers can also obtain one-on-one support with applications by calling 877-508-8364.

## USDA Seeks Members for Advisory Committee on Urban Agriculture

The U.S. Department of Agriculture (USDA) is seeking members for a new advisory committee on urban agriculture, part of a broader effort to focus on the needs of urban farmers. The 12-person committee will advise the Secretary of Agriculture on the development of policies and outreach relating to urban, indoor and other emerging agricultural production practices as well as identify any barriers to urban agriculture.

USDA is seeking nominations for individuals representing a broad spectrum of expertise, including:

- Four agricultural producers (two agricultural producers in an urban area or urban cluster and two agricultural producers who use innovative technology).
- Two representatives from an institution of higher education or extension program.
- One representative of a nonprofit organization, which may include a public health, environmental or community organization.
- One representative of business and economic development, which may include a business development entity, a chamber of commerce, a city government or a planning organization.
- One individual with supply chain experience, which may include a food aggregator, wholesale food distributor, food hub or an individual who has direct-to-consumer market experience.
- One individual from a financing entity.
- Two individuals with related experience or expertise in urban, indoor and other emerging agriculture production practices, as determined by the Secretary.
- The 2018 Farm Bill established the Office of Urban Agriculture and Innovative Production and directed USDA to form this advisory committee as well as make other advancements related to urban agriculture. It is led by the NRCS and works in partnership with numerous USDA agencies that support urban agriculture. Its mission is to encourage and promote urban, indoor and other emerging agricultural practices, including community composting and food waste reduction. More information is available in this notice on the Federal Register or at [farmers.gov/urban](https://farmers.gov/urban).
- Nominations should include a cover letter, resume and a [background form](#). Nomination packages must be submitted by mail or email by March 5, 2021. They should be addressed to Ronald Harris, Designated Federal Officer, Director of Outreach and Partnerships, Natural Resources Conservation Service (NRCS), Department of Agriculture, 1400 Independence Avenue, S.W., Room 6006-S, Washington, D.C. 20250, or emailed to [Ronald.Harris@usda.gov](mailto:Ronald.Harris@usda.gov).
- Any interested person or organization may nominate qualified individuals for membership. Self-nominations are also welcome.

All USDA Service Centers are open for business, including those that restrict in-person visits or require appointments. All Service Center visitors wishing to conduct business with NRCS, FSA or any other Service Center agency should call ahead and schedule an appointment. Service Centers that are open for appointments will pre-screen visitors based on health concerns or recent travel, and visitors must adhere to social distancing guidelines. Visitors are also required to wear a face covering during their appointment. Our program delivery staff will continue to work with our producers by phone, email and using online tools. More information can be found at [farmers.gov/coronavirus](https://farmers.gov/coronavirus).

---

## Supervised Credit from FSA

Farm Service Agency (FSA) farm loans are considered supervised credit. Unlike loans from a commercial lender, FSA loans are intended to be temporary in nature. Our goal is to help you graduate to commercial credit, and our farm loan staff is available to help borrowers through training and credit counseling.

The FSA team will help borrowers identify their goals to ensure financial success. FSA staff will advise borrowers on developing strategies and a plan to meet your goals and graduate to commercial credit. FSA borrowers are responsible for the success of their farming operation, but FSA staff will help in an advisory role, providing the tools necessary to help you achieve your operational goals and manage your finances.

For more information on FSA farm loan programs, contact Lloyd Wilhelm, Northern CED, at (907) 895-4242, Erin Sturdivant, Southern CED, at (907) 761-7754 or visit [fsa.usda.gov](https://fsa.usda.gov).

---

## Communication is Key in Lending

Farm Service Agency (FSA) is committed to providing our farm loan borrowers the tools necessary to be successful. FSA staff will provide guidance and counsel from the loan application process through the borrower's graduation to commercial credit. While it is FSA's commitment to advise borrowers as they identify goals and evaluate progress, it is crucial for borrowers to communicate with their farm loan staff when changes occur. It is the borrower's responsibility to alert FSA to any of the following:

- Any proposed or significant changes in the farming operation
- Any significant changes to family income or expenses
- The development of problem situations
- Any losses or proposed significant changes in security

If a farm loan borrower can't make payments to suppliers, other creditors, or FSA on time, contact your farm loan staff immediately to discuss loan servicing options.

For more information on FSA farm loan programs, contact Lloyd Wilhelm, Northern CED, at (907) 895-4242, Erin Sturdivant, Southern CED, at (907) 761-7754 or visit [fsa.usda.gov](https://fsa.usda.gov).

## USDA Service Centers Resuming Office Visits in Some Locations While Taking Precautionary Measures to Help Prevent the Spread of Coronavirus

Some USDA Service Centers in Alaska will begin allowing in-person office visits by appointment only. All Service Center visitors wishing to conduct business should call ahead to confirm the office's status and make an appointment before visiting. Visitors will be pre-screened based on health concerns or recent travel and must adhere to social distancing guidelines. Visitors will be required to wear a face covering during their appointment. Field work will continue with appropriate social distancing. Our program delivery staff will be in the office and work with our producers in person, by phone, by email, or by using other online tools.

Online services are still available to customers, including our [new Box and OneSpan functionality](#) that enable customers to sign and share FSA and NRCS documents with USDA Service Center staff in just a few clicks. Producers can get started with a simple username and password for Box or, for OneSpan, a quick identity verification. Additional services are available to customers with an eAuth account, which provides access to the [farmers.gov](#) portal where producers can view USDA farm loan information and payments and view and track certain USDA program applications and payments. . Through the [FSA website](#), customers can access certain FSA programs and view FSA data, including maps, on [FSAfarm+](#). Customers who do not already have an eAuth account can enroll at [farmers.gov/sign-in](#).

For the most current updates on available services and flexibilities due to COVID-19, or to find contact information for your local Service Center [farmers.gov/coronavirus](#).

---

Persons with disabilities who require accommodations to attend or participate in these meetings and/or events should contact Lloyd Wilhelm, Northern CED, at (907) 895-4242, Erin Sturdivant, Southern CED, at (907) 761-7754 or Federal Relay Service at 1-800-877-8339.
