## Canyon/Ada/Owyhee County FSA Office Is Hiring

The Canyon/Ada/Owyhee County Farm Service Agency (FSA) office in Caldwell is hiring two full time Program Technicians (PTs). Duties include general office activities supporting FSA programs. Successful applicants must be reliable, have a professional attitude and enjoy working with the public. If you know of anyone who might be interested, please share this information with them. Here is the direct link to the position with information on how to apply: [USAJOBS - Job Announcement](#)

Applications must be completed through USAJOBS no later than close of business January 22, 2024.

Contact Jeff Harvey, County Executive Director, at 208-779-3430 for more information.

USDA is an equal opportunity provider, employer, and lender.

---

## Have you ‘herd?’ RMA is holding two virtual informational sessions on crop insurance options for livestock producers.

The U.S. Department of Agriculture (USDA) is hosting two virtual workshops in January for producers to learn about new and expanded livestock risk management products. The “Livestock Roadshow,” hosted by USDA’s Risk Management Agency (RMA), will highlight policy improvements based on feedback from America’s livestock producers, part of the agency’s broader outreach and education efforts. **The Livestock Roadshow virtual sessions are scheduled for January 8 and 17.** [Learn more, get login information and add to your calendar.](#)

## Farmers.gov - Your Online Hub for Conducting Business with USDA

Farmers.gov gives you one place to do business with USDA’s Farm Service Agency (FSA) and the Natural Resources Conservation Service (NRCS), including accessing your farm records, maps, and common land units. You can create a farmers.gov account for the farmers.gov authenticated site, where you can access self-service features through a secure login.

In addition to the self-service features farmers.gov website also has information on USDA programs, farm loans, disaster assistance, conservation programs and crop insurance.

### What can you do with your farmers.gov account?

- Submit a paperless Direct Loan application that provides helpful features including an electronic signature option, the ability to attach supporting documents such as tax returns, complete a balance sheet, and build a farm operating plan.
- View NRCS Disbursements and Farm Loans financial activity from the past 180 days.

- View, print and export detailed farm records and farm/tract maps.
- Export common land unit (field) boundaries as ESRI and GeoJSON file types.
- Import precision agriculture planting boundaries, create labels containing crop information, and print both on farm tract maps.
- Use the draw tools to determine acres in an area of interest that can be printed on a map and provided to a third party or exported as a feature file for use in other geospatial applications.
- View, upload, download and e-sign NRCS documents.
- Request conservation and financial assistance, including submitting a program application.
- Access information on current and past conservation practices, report practice completion and request practice certification
- View detailed information on previous and ongoing contracts, including the amount of cost- share assistance received and request contract modifications.

### How to create a farmers.gov account?

To create a farmers.gov account you will need:

- A USDA individual customer record - A customer record contains information you have given to USDA to do business with them, like your name, address, phone number, and any legal representative authority relationships.
- A login.gov account – Login.gov is a sign-in service that gives people secure online access to participating government programs.

## Farmers Can Now Enroll for the Agriculture Risk Coverage and Price Loss Coverage Programs for the 2024 Crop Year

The U.S. Department of Agriculture (USDA) today announced that agricultural producers can now enroll in the Farm Service Agency's (FSA) [Agriculture Risk Coverage \(ARC\) and Price Loss Coverage \(PLC\)](#) programs for the 2024 crop year. Producers can enroll and make election changes for the 2024 crop year starting Dec. 18, 2023. The deadline to complete enrollment and any election change is March 15, 2024.

On Nov. 16, 2023, President Biden signed into law H.R. 6363, the *Further Continuing Appropriations and Other Extensions Act, 2024* (Pub. L. 118-22), which extended the *Agriculture Improvement Act of 2018* (Pub. L. 115-334), more commonly known as the 2018 Farm Bill, through September 30, 2024. This extension allows authorized programs, including ARC and PLC, to continue operating.

### 2024 Elections and Enrollment

Producers can elect coverage and enroll in ARC-County (ARC-CO) or PLC, which provide crop-by-crop protection, or ARC-Individual (ARC-IC), which protects the entire farm. Although election changes for 2024 are optional, producers must enroll through a signed contract each year. Also, if a producer has a multi-year contract on the farm it will continue for 2024 unless an election change is made.

If producers do not submit their election revision by the March 15, 2024, deadline, their election remains the same as their 2023 election for commodities on the farm. Farm owners cannot enroll in either program unless they have a share interest in the cropland.

Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice, safflower seed, seed cotton, sesame, soybeans, sunflower seed and wheat.

### **2022 Crop Year Payments**

This fall, FSA issued payments totaling more than \$267 million to agricultural producers who enrolled in the 2022 ARC-CO option and the ARC ARC-IC option for covered commodities that triggered a payment. Payments through the PLC option did not trigger for the 2022 crop year.

ARC and PLC payments for a given crop year are paid out the following fall to allow actual county yields and the Market Year Average prices to be finalized. These payments help mitigate fluctuations in either revenue or prices for certain crops. Payments for crops that may trigger for the 2023 crop year will be issued in the fall of 2024.

### **Crop Insurance Considerations**

ARC and PLC are part of a broader USDA safety net that also includes crop insurance and marketing assistance loans.

Producers are reminded that ARC and PLC elections and enrollments can impact eligibility for some crop insurance products.

Producers on farms with a PLC election can purchase Supplemental Coverage Option (SCO) through their Approved Insurance Provider; however, producers on farms where ARC is the election are ineligible for SCO on their planted acres for that crop on that farm.

Unlike SCO, the Enhanced Coverage Option (ECO) is unaffected by an ARC election. Producers may add ECO regardless of the farm program election.

Upland cotton farmers who choose to enroll seed cotton base acres in ARC or PLC are ineligible for the stacked income protection plan (STAX) on their planted cotton acres for that farm.

### **Web-Based Decision Tools**

Many universities offer web-based decision tools to help producers make informed, educated decisions using crop data specific to their respective farming operations. Producers are encouraged to use the tool of their choice to support their ARC and PLC elections.

### **More Information**

For more information on ARC and PLC, producers can visit the [ARC and PLC webpage](#) or contact their local [USDA Service Center](#). Producers can also make elections and complete enrollment [online with level 2 eAuth](#).

---

## **FSA Outlines MAL and LDP Policy**

Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs) provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide you with interim financing after harvest to help you meet cash flow needs without having to sell your commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing

loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2023 MALs and LDPs for all eligible commodities after harvest. Requests for loans and LDPs shall be made on or before the final availability date for the respective commodities.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to Adjusted Gross Income provisions.

To be considered eligible for an LDP, you must have form [CCC-633EZ, Page 1](#) on file at your local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

Marketing loan gains (MLGs) and loan deficiency payments (LDPs) are no longer subject to payment limitations, actively engaged in farming and cash-rent tenant rules.

Adjusted Gross Income (AGI) provisions state that if your total applicable three-year average AGI exceeds \$900,000, then you're not eligible to receive an MLG or LDP. You must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, contact your local County USDA Service Center or visit [fsa.usda.gov](https://fsa.usda.gov).

---

## The Importance of Responding to NASS Surveys

USDA's National Agricultural Statistics Service (NASS) conducts hundreds of surveys every year and prepares reports covering virtually every aspect of U.S. agriculture.

If you receive a survey questionnaire, please respond quickly and online if possible.

The results of the surveys help determine the structure of USDA farm programs, such as soil rental rates for the Conservation Reserve Program and prices and yields used for the Agriculture Risk Coverage and Price Loss Coverage programs. This county-level data is critical for USDA farm payment determinations. Survey responses also help associations, businesses and policymakers advocate for their industry and help educate others on the importance of agriculture.

NASS safeguards the privacy of all respondents and publishes only aggregate data, ensuring that no individual operation or producer can be identified.

NASS data is available online at [nass.usda.gov/Publications](https://nass.usda.gov/Publications) and through the searchable [Quick Stats database](#). Watch a video on how NASS data is used at [youtube.com/watch?v=m-4zjnh26io&feature=youtu.be](https://youtube.com/watch?v=m-4zjnh26io&feature=youtu.be).

## FSA Offers Joint Financing Option on Direct Farm Ownership Loans

The USDA Farm Service Agency's (FSA) [Direct Farm Ownership loans](#) can help farmers and ranchers become owner-operators of family farms, improve and expand current operations, increase agricultural productivity, and assist with land tenure to save farmland for future generations.

There are three types of Direct Farm Ownership Loans: regular, down payment and joint financing. FSA also offers a [Direct Farm Ownership Microloan](#) option for smaller financial needs up to \$50,000.

Joint financing allows FSA to provide more farmers and ranchers with access to capital. FSA lends up to 50 percent of the total amount financed. A commercial lender, a State program or the seller of the property being purchased, provides the balance of loan funds, with or without an FSA guarantee. The maximum loan amount for a joint financing loan is \$600,000, and the repayment period for the loan is up to 40 years.

The operation must be an eligible farm enterprise. Farm Ownership loan funds cannot be used to finance nonfarm enterprises and all applicants must be able to meet general eligibility requirements. Loan applicants are also required to have participated in the business operations of a farm or ranch for at least three years out of the 10 years prior to the date the application is submitted. The applicant must show documentation that their participation in the business operation of the farm or ranch was not solely as a laborer.

For more information about farm loans, contact your local County USDA Service Center or visit [fsa.usda.gov](https://fsa.usda.gov).
