

## USDA Provides Local Support for Beginning Farmers and Ranchers

The first 10 years of a farming or ranching operation are tough. USDA recognizes you need dedicated support to help make sense of all the information coming your way. Now each state has a Beginning Farmer and Rancher team headed up by a state coordinator. The coordinator helps producers who have operated a farm or ranch for less than 10 years navigate USDA and partner resources.

To find your State coordinator, visit [farmers.gov/newfarmers/coordinators/](https://farmers.gov/newfarmers/coordinators/). For more beginning farmer and rancher information, visit [farmers.gov/newfarmers](https://farmers.gov/newfarmers).

## USDA Releases Nationwide Farmer, Rancher and Forest Manager Prospective Customer Survey

You can now take a nationwide survey to help the USDA improve and increase access to its programs and services for America's farmers, ranchers, and forest managers. The survey includes new and existing customers. USDA encourages all agricultural producers to take the survey, especially those who have not worked with USDA previously. The survey gathers feedback on programs and services available through USDA's Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS) and Risk Management Agency (RMA).

The survey is available online at [farmers.gov/survey](https://farmers.gov/survey), and you should complete it by March 31, 2023. Stakeholder organizations are also encouraged to share the survey link through their networks. The survey is available in 14 different languages including Arabic, Chinese, English, French, Hmong, Korean, Navajo, Punjabi, Somali, Spanish, Tagalog, Thai, Urdu and Vietnamese.

In addition to the online survey, the FPAC Business Center, which is administering the survey, will also mail 11,000 printed surveys to various local state stakeholder organizations and farmers markets.

## Guide Available for Underserved Farmers, Ranchers

A multi-agency guide for USDA assistance for underserved farmers and ranchers is now available. If you are a farmer or rancher and are a minority, woman, veteran, beginning, or limited resource producer, you can use this booklet to learn about assistance and targeted opportunities available to you. This includes programs offered through the Farm Service Agency, Natural Resources Conservation Service, and Risk Management Agency. [Download the guide here](#). The guide is also available in Spanish, Hmong, Korean, Vietnamese, Thai and Chinese on [farmers.gov/translations](https://farmers.gov/translations).

## Ask the Expert: Customer Farm Records Mapping Q&A with Gwen Uecker

In this Ask the Expert, Gwen Uecker answers a few questions about USDA's farmers.gov customer portal. Gwen serves as the Team Lead for the Program Delivery Division (PDD), Common Processes Branch for the Deputy Administrator of Farm Program within Farm Service Agency (FSA). She helps lead PDD's effort to provide personalized customer information via farmers.gov.

A farmers.gov account provides self-service opportunities to FSA and Natural Resources Conservation Service (NRCS) customers via a secure authenticated access process.

### **What is the value of Customer Farm Records Mapping and why should producers use farmers.gov?**

Customer Farm Records Mapping (cFRM) provides you with self-help options and access to FSA data from home 24/7. For example, you do not have to wait for FSA to mail out maps for acreage reporting or make a special trip to the office to pick up your maps. You can print farm tract maps directly from farmers.gov.

New features include the ability to import precision agriculture planting boundaries and create labels containing crop information that can be printed on-farm tract maps. The maps can then be provided to FSA at the local USDA Service Center for completing the annual crop acreage report. You can use the draw tools to determine acres in a drawn area. The drawn area can be printed on a map and provided to the Service Center, a third party such as a chemical applicator, or exported as a feature file for use in other geospatial applications.

In addition, you can "Switch Profile" to view cFRM data for individuals or entities you are authorized to act on behalf of. This means you can view and print maps for your entity's farms. Producers can also view and print farm records details, including base and yield information (FSA-156EZ).

The FSA Farm Records Mapping page is accessed by clicking the blue "View Farm Records" button from the farmers.gov LAND tab.
