**State Executive Director:**  
Jim Eichhorst

### USDA Extends Application Deadline for Margin Protection Program (MPP) for Dairy to June 22

The re-enrollment deadline for the Margin Protection Program (MPP) for Dairy has been extended until June 22, 2018.

The new and improved program protects participating dairy producers when the margin – the difference between the price of milk and feed costs – falls below levels of protection selected by the applicant.

The re-enrollment deadline was previously extended through June 8, 2018. The deadline is being extended a second time to ensure

**State Committee:**

Jenny Rhodes, Chairperson  
Steve Ernst  
Steve Isaacson  
Pat Langenfelder

To find contact information for your local office go to [www.fsa.usda.gov/md](http://www.fsa.usda.gov/md)

that dairy producers are given every opportunity to make a calculated decision and enroll in the program if they choose.

This will be the last opportunity for producers to take advantage of key adjustments Congress made to provisions of the MPP program under the Bipartisan Budget Act of 2018 to strengthen its support of dairy producers. USDA encourages producers contemplating enrollment to use the online web resource at [www.fsa.usda.gov/mpptool](http://www.fsa.usda.gov/mpptool) to calculate the best levels of coverage for their dairy operation.

The next margin under MPP, for May 2018, will be published on June 28, 2018. Therefore, all coverage elections on form CCC-782 and the \$100 administrative fee, unless exempt, must be submitted to the County FSA Office no later than June 22, 2018. No registers will be utilized, so producers are encouraged to have their enrollment for 2018 completed by COB June 22, 2018.

All dairy operations must make new coverage elections for 2018 during the re-enrollment period, even if the operation was enrolled during the previous 2018 signup. Coverage elections made for 2018 will be retroactive to January 1, 2018. MPP payments will be sequestered at a rate of 6.6 percent.

To learn more about the Margin Protection Program for dairy, contact your local USDA Farm Service Agency county office at [offices.usda.gov](http://offices.usda.gov) or visit us on the Web at [www.fsa.usda.gov](http://www.fsa.usda.gov).

## USDA Partners with Texas A&M to Help Veterans Seeking Agriculture Loans and Careers

USDA announced a partnership between the U.S. Department of Agriculture (USDA) and Texas A&M's AgriLife Extension Service to help military veterans obtain loans and pursue careers as farmers and ranchers. Secretary Perdue joined local dignitaries, members of the Armed Forces, veterans, and community leaders at the Dallas Farmers Market to unveil the new pilot program.

USDA's [Farm Service Agency](#) (FSA) is collaborating with AgriLife Extension Service on the pilot, which is part of the Texas A&M Battleground to Breaking Ground project. The program makes it easier for veterans to meet federal requirements to get FSA direct [farm ownership](#) loans, which can help provide access to land and capital.

The pilot program, which will include 15 to 18 veterans, will roll out in three phases: an introductory workshop, a business planning curriculum, and a production curriculum over a period of 12 to 18 months.

Typically, loan applicants must participate in the business operations of a farm for at least three years during a 10-year period. However, as part of this pilot program, participants can combine the certificate they receive with their military leadership or management experience to satisfy this requirement. According to the U.S. Department of Labor, approximately 45 percent of armed service members are from rural America.

Pilot program applications will be accepted from interested veterans between June 15 and July 20, 2018, until 11 p.m. central standard time, [apply here](#). For more information about USDA programs, visit [newfarmers.usda.gov/veterans](http://newfarmers.usda.gov/veterans) or <https://www.farmers.gov>.

## USDA Resumes Continuous Conservation Reserve Program Enrollment

*One-Year Extension Available to Holders of Many Expiring Contracts through Continuous Signup*

As part of a 33-year effort to protect sensitive lands and improve water quality and wildlife habitat on private lands, the U.S. Department of Agriculture (USDA) will resume accepting applications for the voluntary [Conservation Reserve Program](#) (CRP). Eligible farmers, ranchers, and private landowners can sign up at their local [Farm Service Agency \(FSA\)](#) office between June 4 and Aug. 17, 2018.

FSA stopped accepting applications last fall for the CRP continuous signup (excluding applications for the Conservation Reserve Enhancement Program (CREP) and CRP grasslands). This pause allowed USDA to review available acres and avoid exceeding the 24 million-acre CRP cap set by the 2014 Farm Bill. New limited practice availability and short sign up period helps ensure that landowners with the most sensitive acreage will enroll in the program and avoid unintended competition with new and beginning farmers seeking leases. CRP enrollment currently is about 22.7 million acres.

---

## About CRP

In return for enrolling land in CRP, USDA, through FSA on behalf of the Commodity Credit Corporation (CCC), provides participants with annual rental payments and cost-share assistance. Landowners enter into contracts that last between 10 and 15 years. CRP pays producers who remove sensitive lands from production and plant certain grasses, shrubs and trees that improve water quality, prevent soil erosion and increase wildlife habitat.

The new changes to CRP do not impact the Conservation Reserve Enhancement Program, a related program offered by CCC and state partners.

Producers wanting to apply for the CRP continuous signup or CRP grasslands should contact their USDA service center. To locate your local FSA office, visit <https://www.farmers.gov>. More information on CRP can be found at [www.fsa.usda.gov/crp](http://www.fsa.usda.gov/crp).

---

## 2018 Signup for CRP

For this year's signup, limited priority practices are available for continuous enrollment. They include grassed waterways, filter strips, riparian buffers, wetland restoration and others. [View a full list of practices](#).

FSA will use updated soil rental rates to make annual rental payments, reflecting current values. It will not offer incentive payments as part of the new signup.

USDA will not open a general signup this year, however, a one-year extension will be offered to existing CRP participants with expiring CRP contracts of 14 years or less. Producers eligible for an extension will receive a letter with more information.

---

## CRP Grasslands

Additionally, FSA established new [ranking criteria](#) for [CRP Grasslands](#). To guarantee all CRP grasslands offers are treated equally, applicants who previously applied will be asked to reapply using the new ranking criteria. Producers with pending applications will receive a letter providing the options.

---

## USDA Reopens Application Period for Producers Recovering from Cattle Loss, Other Disasters

*Signup Begins June 4 for Livestock Indemnity Program and Emergency Assistance for Livestock, Honey Bees, and Farm-raised Fish*

The U.S. Department of Agriculture (USDA) will begin accepting disaster assistance program applications on June 4 from agricultural producers who suffered livestock, honeybees, farm-raised fish and other losses due to natural disasters.

USDA's [Farm Service Agency](#) (FSA) is reopening the application period for two disaster assistance programs in response to statutory changes made by Congress earlier this year.

Beginning June 4, FSA will accept new applications for losses for calendar year 2017 or 2018 filed under the [Livestock Indemnity Program](#) (LIP) or [Emergency Assistance for Livestock, Honey Bees, and Farm-raised Fish Program](#) (ELAP). Producers who already submitted applications and received decisions on their applications for these years do not need to file again, but they can reapply if they have additional losses or their application was disapproved because it was filed late.

In February, Congress passed the Bipartisan Budget Act of 2018, which made several changes to these two disaster programs, including:

- Removing ELAP's \$20 million fiscal year funding cap, enabling FSA to pay producers' 2017 applications in full and their 2018 applications as soon as they are approved.
- Removing the per-person and legal entity annual program payment limitation of \$125,000 for LIP for 2017 and future years. (The income limitation applies as it did before, meaning producers with an adjusted gross income of more than \$900,000 are not eligible.)
- Changing LIP to allow producers to receive a payment for injured livestock that are sold for a reduced price due to an eligible event. Previously, the program only covered financial loss for livestock death above normal mortality.

Producers interested in LIP or ELAP should contact their [local USDA service center](#). To apply, producers will need to provide verifiable and reliable production records and other information about their operation.

Drought, wildfires and other disasters continue to impact farmers and ranchers, and LIP and ELAP are two of many programs available through USDA to help producers recover. Learn more at <https://www.usda.gov/disaster>.

## USDA Offers Targeted Farm Loan Funding for Underserved Groups and Beginning Farmers

The USDA Farm Service Agency (FSA) reminds producers that FSA offers targeted farm ownership and farm operating loans to assist underserved applicants as well as beginning farmers and ranchers.

USDA defines underserved applicants as a group whose members have been subjected to racial, ethnic, or gender prejudice because of their identity as members of the group without regard to their individual qualities. For farm loan program purposes, targeted underserved groups are women, African Americans, American Indians and Alaskan Natives, Hispanics and Asians and Pacific Islanders.

Underserved or beginning farmers and ranchers who cannot obtain commercial credit from a bank can apply for either FSA direct loans or guaranteed loans. Direct loans are made to applicants by FSA. Guaranteed loans are made by lending institutions who arrange for FSA to guarantee the loan. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. The FSA guarantee allows lenders to make agricultural credit available to producers who do not meet the lender's normal underwriting criteria.

The direct and guaranteed loan program provides for two types of loans: farm ownership loans and farm operating loans. In addition to customary farm operating and ownership loans, FSA now offers Microloans through the direct loan program. The focus of Microloans is on the financing needs of small, beginning farmer, niche and non-traditional farm operations. Microloans are available for both ownership and operating finance needs. To learn more about microloans, visit [www.fsa.usda.gov/microloans](http://www.fsa.usda.gov/microloans).

To qualify as a beginning producer, the individual or entity must meet the eligibility requirements outlined for direct or guaranteed loans. Additionally, individuals and all entity members must have operated a farm for less than 10 years. Applicants must materially or substantially participate in the operation.

For more information on FSA's farm loan programs and targeted underserved and beginning farmer guidelines, visit [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans).

---

## USDA Packages Disaster Protection with Loans to Benefit Specialty Crop and Diversified Producers

*Free basic coverage and discounted premiums available for new and underserved loan applicants*

Producers who apply for FSA farm loans will be offered the opportunity to enroll in new disaster loss protections created by the 2014 Farm Bill. The new coverage, available from the Noninsured Crop Disaster Assistance Program (NAP), is available to FSA loan applicants who grow non-insurable crops, so this is especially important to fruit and vegetable producers and other specialty crop growers.

New, underserved and limited income specialty growers who apply for farm loans could qualify for basic loss coverage at no cost, or higher coverage for a discounted premium.

The basic disaster coverage protects at 55 percent of the market price for crop losses that exceed 50 percent of production. Covered crops include "specialty" crops, for instance, vegetables, fruits, mushrooms, floriculture, ornamental nursery, aquaculture, turf grass, ginseng, honey, syrup, hay,

forage, grazing and energy crops. FSA allows beginning, underserved or limited income producers to obtain NAP coverage up to 90 days after the normal application closing date when they also apply for FSA credit.

In addition to free basic coverage, beginning, underserved or limited income producers are eligible for a 50 percent discount on premiums for the higher levels of coverage that protect up to 65 percent of expected production at 100 percent of the average market price. Producers also may work with FSA to protect value-added production, such as organic or direct market crops, at their fair market value in those markets. Targeted underserved groups eligible for free or discounted coverage are American Indians or Alaskan Natives, Asians, Blacks or African Americans, Native Hawaiians or other Pacific Islanders, Hispanics, and women.

FSA offers a variety of loan products, including farm ownership loans, operating loans and microloans that have a streamlined application process.

Growers need not apply for an FSA loan, nor be a beginning, limited resource, or underserved farmer, to be eligible for Noninsured Crop Disaster Assistance Program assistance. To learn more, visit [www.fsa.usda.gov/nap](http://www.fsa.usda.gov/nap) or [www.fsa.usda.gov/farmloans](http://www.fsa.usda.gov/farmloans), or contact your local FSA office at <https://offices.usda.gov>.

## Selected Interest Rates and Dates to Remember

Selected Interest Rates for June 2018		Dates to Remember	
90-Day Treasury Bill	2.250%	June 15	Crop reporting deadline for tomatoes.
Farm Operating Loans — Direct	3.625%	June 15	COC nomination period begins.
Farm Ownership Loans — Direct	4.000%	June 22	Re-enrollment deadline for the Margin Protection Program (MPP) for Dairy.
Farm Ownership Loans — Direct Down Payment, Beginning Farmer or Rancher	1.500%	July 4	MD FSA offices closed for Independence Day.
Emergency Loans	3.750%	July 15	Crop reporting deadline for beans (limas only), cucumbers (planted 4/20-6/25 in Caroline, Dorchester, Kent, and Talbot counties), <b>ALL OTHER CROPS.</b>
Farm Storage Facility Loans (7 years)	3.000%	Aug. 1	ARCPLC annual enrollment deadline.
Sugar Storage Facility Loans	3.000%	Aug. 1	COC election nomination forms must be postmarked or received by county office.
Commodity Loans 1996-Present	3.250%	Aug. 15	Crop reporting deadline for beans (all types except limas) and cucumbers (planted 6/26-8/10 in Caroline, Dorchester, Kent, and Talbot counties).
