2019 Acreage Reporting Dates

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit their local FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Maryland:

July 15, 2019
Perennial forage, beans (limas only), cucumbers (planted 4/20 - 6/25 in Caroline, Dorchester, Kent and Talbot Counties), **ALL OTHER CROPS**

August 15, 2019
Beans (all types except limas), cucumbers (planted 6/26-8/10 in Caroline, Dorchester, Kent and Talbot Counties)

The following exceptions apply to the above acreage reporting dates:

- If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.

To find contact information for your local office go to www.fsa.usda.gov/md

- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendars days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15th.

Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For questions regarding crop certification and crop loss reports, please contact your local FSA office.

New Dairy Margin Coverage Signup Began June 17

Signup began June 17 for the new Dairy Margin Coverage (DMC) program, the cornerstone program of the dairy safety net that helps dairy producers manage the volatility of milk and feed prices, operated by the U.S. Department of Agriculture’s Farm Service Agency (FSA).

The 2018 Farm Bill allowed USDA to construct the new DMC, which replaces the Margin Protection Program for Dairy (MPP-Dairy). This new program offers protection to dairy producers when the difference between the all-milk price and the average feed cost (the margin) falls below a certain dollar amount selected by the producer.

The program provides coverage retroactive to January 1, 2019, with applicable payments following soon after enrollment. At the time of signup, dairy producers can choose between the $4.00 to $9.50 coverage levels. Learn more about coverage levels and premiums.

The Farm Bill also allows producers who participated in MPP-Dairy from 2014-2017 to receive a repayment or credit for part of the premiums paid into the program. FSA has been providing premium reimbursements to producers since last month and those that elect the 75 percent credit option will now have that credit applied toward 2019 DMC premiums.

The Department has built in a 50 percent blend of premium and supreme alfalfa hay prices with the alfalfa hay price used under the prior dairy program to provide a total feed cost that more closely aligns with hay rations used by many producers. At a milk margin minus feed cost of $9.50 or less, payments are possible. With the 50 percent hay blend, FSA’s revised April 2019 income over feed cost margin is $8.82 per hundredweight (cwt). The revised margins for January, February and March are, respectively, $7.71, $7.91 and $8.66 – triggering DMC payments for each month.

DMC payments will be reduced by 6.2 percent in 2019 because of a sequester order required by Congress and issued in accordance with the Balanced Budget and Emergency Deficit Control Act of 1985.

DMC offers catastrophic coverage at no cost to the producer, other than an annual $100 administrative fee. Producers can opt for greater coverage levels for a premium in addition to the administrative fee. Operations owned by limited resource, beginning, socially disadvantaged or veteran farmers and ranchers may be eligible for a waiver on administrative fees. Producers have the choice to lock in coverage levels until 2023 and receive a 25-percent discount on their DMC premiums.

To assist producers in making coverage elections, USDA partnered with the University of Wisconsin to develop a DMC decision support tool, which can be used to evaluate various scenarios using different coverage levels through DMC.

All dairy operations in the United States are eligible for the DMC program. An operation can be run either by a single producer or multiple producers who commercially produce and market cows' milk.

Eligible dairy operations must have a production history determined by FSA. For most operations, production history is based on the highest milk production in 2011, 2012 and 2013. Newer dairy operations have other options for determining production history. Producers may contact their local FSA office to get their verified production history.

Dairy producers also are reminded that 2018 Farm Bill provisions allow for dairy operation to participate in both FSA's DMC program and the Risk Management Agency's Livestock Gross Margin (LGM-Dairy) program. There are also no restrictions from participating in DMC in conjunction with any other RMA insurance products.

For more information, visit farmers.gov DMC webpage or contact your local USDA service center. To locate your local FSA office, visit farmers.gov/service-locator.

Eligibility for Nominations for the 2019 County Committee Elections

The U.S. Department of Agriculture (USDA) Farm Service Agency (FSA) county committees are a critical component of the day-to-day operations of FSA and allow grassroots input and local administration of federal farm programs.

Committees are comprised of locally elected agricultural producers responsible for the fair and equitable administration of FSA farm programs in their counties. Committee members are accountable to the Secretary of Agriculture. If elected, members become part of a local decision making and farm program delivery process.

A county committee is composed of three to 11 elected members from local administrative areas (LAA). Each member serves a three-year term. To be eligible for nomination and hold office as a committee member or alternate, a person must fulfill each of the following requirements: (1) be a producer with an interest in farming or ranching operations, (2) participate or cooperate in any FSA program provided for by law, (3) be a U.S. citizen, (4) be of legal voting age, (5) meet the basic eligibility requirements, and (6) reside in the county or multi-county jurisdiction in which they will be serving.

All nomination forms for the 2019 election must be postmarked or received in the local USDA service center by Aug. 1, 2019. For more information on FSA county committee elections and appointments, refer to the FSA fact sheet: Eligibility to Vote and Hold Office as a COC Member available online at: fsa.usda.gov/elections.

USDA Offers Producers Options to Re-enroll or Extend Expiring CRP Contracts

Farmers and ranchers with expiring Conservation Reserve Program (CRP) contracts may now re-enroll in certain CRP continuous signup practices or, if eligible, select a one-year contract extension. USDA's Farm Service Agency (FSA) is also accepting offers from landowners who want to enroll for the first time in one of the country's largest conservation programs. FSA's 52nd signup for CRP runs from June 3 to August 23.

This year's CRP continuous signup includes practices such as grass waterways, filter strips, riparian buffers, wetland restoration and others. View a full list of practices approved for this signup. Continuous signup contracts last for 10 to 15 years. Soil rental rates are set at 90 percent of 2018 rates. Incentive payments are not offered for these practices.

Producers interested in applying for CRP continuous practices, including those under existing CREP agreements, or who want to extend their contract, should contact their USDA service center by August 23.

To locate your local FSA office, visit www.farmers.gov. More information on CRP can be found at www.fsa.usda.gov/crp.

Higher Limits Now Available on USDA Farm Loans

Higher limits are now available for borrowers interested in USDA's farm loans, which help agricultural producers purchase farms or cover operating expenses. The 2018 Farm Bill increased the amount that producers can borrow through direct and guaranteed loans available through USDA's Farm Service Agency (FSA) and made changes to other loans, such as microloans and emergency loans.

Key changes include:

- The Direct Operating Loan limit increased from $300,000 to $400,000, and the Guaranteed Operating Loan limit increased from $ 1.429 million to $1.75 million. Operating loans help producers pay for normal operating expenses, including machinery and equipment, seed, livestock feed, and more.
- The Direct Farm Ownership Loan limit increased from $300,000 to $600,000, and the Guaranteed Farm Ownership Loan limit increased from $1.429 million to $1.75 million. Farm ownership loans help producers become owner-operators of family farms as well as improve and expand current operations.
- Producers can now receive both a $50,000 Farm Ownership Microloan and a $50,000 Operating Microloan. Previously, microloans were limited to a combined $50,000. Microloans provide flexible access to credit for small, beginning, niche, and non-traditional farm operations.
- Producers who previously received debt forgiveness as part of an approved FSA restructuring plan are now eligible to apply for emergency loans. Previously, these producers were ineligible.
- Beginning and socially disadvantaged producers can now receive up to a 95 percent guarantee against the loss of principal and interest on a loan, up from 90 percent.

About Farm Loans

Direct farm loans, which include microloans and emergency loans, are financed and serviced by FSA, while guaranteed farm loans are financed and serviced by commercial lenders. For guaranteed loans, FSA provides a guarantee against possible financial loss of principal and interest.

For more information on FSA farm loans, visit http://www.fsa.usda.gov/ or contact your local USDA service center.

Reminder to FSA Direct and Guaranteed Borrowers with Real Estate Security

Farm Service Agency would like to remind farm loan borrowers who have pledged real estate as security for their loans, of key items for maintaining loan collateral. It is required that borrowers must obtain prior consent, or approval, by either FSA, for direct loans, or by a guaranteed lender, for any transaction affecting real estate security. Examples of these transactions include, but are not limited to:

- Leases of any kind;
- Easements of any kind;
- Subordinations;
- Partial releases, and
- Sales

Failure to meet or follow the requirements set forth in the loan agreement, promissory note, and other security instruments could lead to nonmonetary default which could jeopardize your current and future loans.

It is critical that borrowers keep an open line of communication with their FSA loan staff or guaranteed lender when it comes to changes in their operation. For more information on borrower responsibilities, read Your FSA Farm Loan Compass.
