Message From the State Executive Director

Greetings from the Mississippi Farm Service Agency (FSA) State Office!

FSA provides federal program benefits to support and sustain America's healthful, stable, accessible and affordable food supply. Our primary mission at FSA is to assist Mississippi farmers and ranchers in securing the best possible benefit from programs such as disaster relief, conservation, loans for operating and land purchase, commodity price support assistance and other available resources through USDA initiatives.

We encourage you to read our monthly newsletters and bulletins as this is our primary way of disseminating information

State Executive Director:
Michael R. Sullivan

State Committee Met:
February 10, 2016 at 10:00
a.m.

Interest Rates:

90-Day Treasury Bill	.125%
Farm Operating Loans - Direct	2.625%
Farm Ownership Loans - Direct	3.875%
Farm Ownership Loans - Direct Down Payment, Beginning Farmer	1.50%
Emergency Loans	.625%
Farm Storage Facility Loan (7 year)	2.000%
Farm Storage Facility Loan (10 years)	2.250%
Farm Storage Facility Loan (12 years)	2.375%

Please contact your [local FSA Office](#) for questions specific to your operation or county.

other than by word of mouth. Visit our USDA Service Centers and allow us to assist you in taking advantage of many services that are available to you as landowners and producers. You may contact your local County Office for more information on our programs and loans - <http://offices.usda.gov>.

Enrollment Period for 2016 USDA Safety Net Coverage Began Dec. 7

USDA's Farm Service Agency (FSA) has announced that producers who chose coverage from the safety net programs established by the 2014 Farm Bill, known as the Agriculture Risk Coverage (ARC) or the Price Loss Coverage (PLC) programs, can begin visiting FSA county offices starting Dec. 7, 2015, to sign contracts to enroll in coverage for 2016. **The enrollment period will continue until Aug. 1, 2016.**

Although the choice between ARC and PLC is completed and remains in effect through 2018, producers must still enroll their farm by signing a contract each year to receive coverage.

Producers are encouraged to contact their local FSA office to schedule an appointment to enroll. If a farm is not enrolled during the 2016 enrollment period, producers on that farm will not be eligible for financial assistance from the ARC or PLC programs should crop prices or farm revenues fall below the historical price or revenue benchmarks established by the program.

The two programs were authorized by the 2014 Farm Bill and offer a safety net to agricultural producers when there is a substantial drop in prices or revenues for covered commodities. Covered commodities include barley, canola, large and small chickpeas, corn, crambe, flaxseed, grain sorghum, lentils, mustard seed, oats, peanuts, dry peas, rapeseed, long grain rice, medium grain rice (which includes short grain and sweet rice), safflower seed, sesame, soybeans, sunflower seed and wheat. Upland cotton is no longer a covered commodity. For

more details regarding these programs, go to www.fsa.usda.gov/arc-plc.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

49th Enrollment Period for the General Conservation Reserve Program Underway

December 2015 marked the 30th Anniversary for the Nation's Most Successful Voluntary Conservation Program

Farmers and ranchers are reminded that the **general enrollment period for the Conservation Reserve Program (CRP) started Dec. 1, 2015, and ends on Feb. 26, 2016**. December 2015 also marked the 30th anniversary of CRP, a federally funded program that assists agricultural producers with the cost of restoring, enhancing and protecting certain grasses, shrubs and trees to improve water quality, prevent soil erosion and reduce loss of wildlife habitat.

As of September 2015, 24.2 million acres were enrolled in CRP. CRP also is protecting more than 170,000 stream miles with riparian forest and grass buffers, enough to go around the world 7 times. For an interactive tour of CRP success stories from across the U.S., visit www.fsa.usda.gov/CRPis30, or follow on Twitter at #CRPis30.

Participants in CRP establish long-term, resource-conserving plant species, such as approved grasses or trees (known as "covers") to control soil erosion, improve water quality and develop wildlife habitat on marginally productive agricultural lands. In return, FSA provides participants with rental payments and cost-share assistance. At times when commodity prices are low, enrolling sensitive lands in CRP can be especially attractive to farmers and ranchers, as it softens the economic hardship for landowners at the same time that it provides ecological benefits. Contract duration is between 10 and 15 years. The long-term goal of the program is to re-establish native plant species on marginal agricultural lands for the primary purpose of preventing soil erosion and improving water quality and related benefits of reducing loss of wildlife habitat.

Contracts on 1.64 million acres of CRP are set to expire on Sept. 30, 2016. Producers with expiring contracts or producers with environmentally sensitive land are encouraged to evaluate their options under CRP.

Since it was established on Dec. 23, 1985, CRP has:

- Prevented more than 9 billion tons of soil from eroding, enough soil to fill 600 million dump trucks;
- Reduced nitrogen and phosphorous runoff relative to annually tilled cropland by 95 and 85 percent respectively;
- Sequestered an annual average of 49 million tons of greenhouse gases, equal to taking 9 million cars off the road.

Since 1996, CRP has created nearly 2.7 million acres of restored wetlands.

For more information FSA conservation programs, visit a local FSA office or www.fsa.usda.gov/conservation. To find your local FSA office, visit <http://offices.usda.gov>.

NAP Application for Coverage Deadlines

NAP provides financial assistance to eligible producers when natural disasters cause catastrophic loss of production (low yield) or prevented planting of an eligible noninsurable crop by providing coverage equivalent to CAT. In the event of a natural disaster, NAP covers the amount of loss greater than the expected production based on the producer's approved yield and reported acreage. For other eligible NAP crops, producers may select buy-up coverage ranging from 50 to 65 percent of production, in 5 percent increments, and for 100 percent of the average market price. Producers who want to purchase coverage through the Noninsured Crop Disaster Assistance Program (NAP) should do so on or before the application closing date for the applicable crop.

NAP Application Closing Dates are shown below:

1/15/2016 Closing Date

for broccoli, cabbage, greens, and white potatoes

2/1/2016 Closing Date

for beans, cantaloupe, cucumbers, eggplant, honeydew, lettuce, pecans, peppers, radishes, squash, turnips, and watermelons

2/28/2016 Closing Date

for corn, cotton, okra, peanuts, peas, pumpkins, rice, sesame, sorghum, soybeans, sugarcane, and sweet potatoes

USDA has partnered with Michigan State University and the University of Illinois to create an online tool at www.fsa.usda.gov/nap that allows producers to determine whether their crops are eligible for federal crop insurance or NAP and to explore the best level of protection for their operation. NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production, with higher levels of coverage, up to 65 percent of their expected production at 100 percent of the average market price available, including coverage for organics and crops marketed directly to consumers. Crops intended for grazing are not eligible for additional NAP coverage.

Federal crop insurance coverage is sold and delivered solely through private insurance agents. Agent lists are available at all USDA Service Centers or at USDA's online Agent Locator: <http://prodwebnlb.rma.usda.gov/apps/AgentLocator/#>. Producers can use the USDA Cost Estimator, <https://ewebapp.rma.usda.gov/apps/costestimator/Default.aspx>, to predict insurance premium costs.

For more information on NAP, service fees, premiums and sales deadlines, contact your Administrative County Office or visit the web at www.fsa.usda.gov/nap.

USDA Offers Flood Impacted Mississippi Farmers and Ranchers Immediate Disaster Assistance

Farm Service Agency Stands Ready to Assist Agricultural Producers Slammed by Recent Heavy Rains

Mississippi Farm Service Agency (FSA) reminds farmers and ranchers across the state of federal farm program benefits that may be available to help eligible producers recover from recent heavy rains and flooding.

FSA offers disaster assistance and low-interest loan programs to assist agricultural producers in their recovery efforts following floods or similar qualifying natural disasters. Available programs and loans include:

- **Non-Insured Crop Disaster Assistance Program (NAP)** - provides financial assistance to producers of non-insurable crops when low yields, loss of inventory, or prevented planting occur due to natural disasters (includes native grass for grazing). Eligible producers must have purchased NAP coverage for 2015 crops.
- **Livestock Indemnity Program (LIP)** - offers payments to eligible producers for livestock death losses in excess of normal mortality due to adverse weather. Eligible losses may include those determined by FSA to have been caused by hurricanes, floods, blizzards, wildfires, tropical storms, tornados lightening, extreme heat, and extreme cold. Producers will be required to provide verifiable documentation of death losses resulting from an eligible adverse weather event and must submit a notice of loss to their local FSA office within 30 calendar days of when the loss of livestock is apparent.
- **Tree Assistance Program (TAP)** – provides assistance to eligible orchardists and nursery tree growers for qualifying tree, shrub and vine losses due to natural disaster.
- **Emergency Assistance for Livestock, Honeybees, and Farm-Raised Fish Program (ELAP)** - provides emergency relief for losses due to feed or water shortages, disease, adverse weather, or other conditions, which are not adequately addressed by other disaster programs. ELAP covers physically damaged or destroyed livestock feed that was purchased or mechanically harvested forage or feedstuffs intended for use as feed for the **producer's** eligible livestock. In order to be considered eligible, harvested forage must be baled; forage that is only cut, raked or windrowed is not eligible. Producers must submit a notice of loss to their local FSA office within 30 calendar days of when the loss is apparent. ELAP also covers up to 150 lost grazing days in instances when a producer has been forced to remove livestock from a grazing pasture due to floodwaters. For beekeepers, ELAP covers beehive losses (the physical structure) in instances where the hive has been destroyed by a natural disaster including flooding, high winds and tornadoes.
- **Emergency Loan Program** – Available to producers with agriculture operations located in a county under a primary or contiguous **Secretarial Disaster designation**. These low interest loans help producers recover from production and physical losses due to drought, flooding.
- **Emergency Conservation Program (ECP)** - provides emergency funding for farmers and ranchers to rehabilitate land severely damaged by natural disasters; includes fence loss.
- **HayNet** - is an Internet-based Hay and Grazing Net Ad Service allowing farmers and ranchers to share 'Need Hay' ads and 'Have Hay' ads online. Farmers also can use another feature to post advertisements for grazing land, specifically ads announcing the availability of grazing land or ads requesting a need for land to graze. www.fsa.usda.gov/haynet.

To establish or retain FSA program eligibility, farmers and ranchers must report prevented planting and failed acres (crops and grasses). Prevented planting acreage must be reported on form FSA-576, Notice of Loss, no later than 15 calendar days after the final planting date as established by FSA and Risk Management Agency (RMA).

For more information on disaster assistance programs and loans visit www.fsa.usda.gov/ or contact your local FSA Office. To find your local FSA county office, visit <http://offices.usda.gov>.

2016 Acreage Reporting Dates in Mississippi

In order to comply with FSA program eligibility requirements, all producers are encouraged to visit the Name County FSA office to file an accurate crop certification report by the applicable deadline.

The following acreage reporting dates are applicable for Name County:

December 15, 2015	Fall-Seeded Small Grains
January 15, 2016	Blueberries, Grapes, and Peaches
March 15, 2016	Pecans
July 15, 2016:	All other crops

The following exceptions apply to the above acreage reporting dates:

If the crop has not been planted by the above acreage reporting date, then the acreage must be reported no later than 15 calendar days after planting is completed.

- If a producer acquires additional acreage after the above acreage reporting date, then the acreage must be reported no later than 30 calendar days after purchase or acquiring the lease. Appropriate documentation must be provided to the county office.
- If a perennial forage crop is reported with the intended use of “cover only,” “green manure,” “left standing,” or “seed,” then the acreage must be reported by July 15th. Noninsured Crop Disaster Assistance Program (NAP) policy holders should note that the acreage reporting date for NAP covered crops is the earlier of the dates listed above or 15 calendar days before grazing or harvesting of the crop begins.

For more information, producers are encouraged to visit their local FSA office. To find a local FSA office, visit <http://offices.usda.gov>.

Time is Running Out - Report Livestock Losses by Jan. 30, 2016

The Livestock Indemnity Program (LIP) provides assistance to eligible producers for livestock death losses in excess of normal mortality due to adverse weather and attacks by animals reintroduced into the wild by the federal government or protected by federal law. LIP compensates livestock owners and contract growers for livestock death losses in excess of normal mortality due to adverse weather, including losses due to hurricanes, floods, blizzards, wildfires, extreme heat or extreme cold.

For 2015, eligible losses must occur on or after Jan. 1, 2015, and before December 31, 2015. A notice of loss must be filed with FSA within 30 days of when the loss of livestock is apparent. Participants must provide the following supporting documentation to their local FSA office no later than 30 calendar days after the end of the calendar year for which benefits are requested:

- Proof of death documentation
- Copy of growers contracts
- Proof of normal mortality documentation

USDA has established normal mortality rates for each type and weight range of eligible livestock, i.e. Adult Beef Cow = 1.5% and Non-Adult Beef Cattle (less than 400 pounds) = 5%. These established percentages reflect losses that are considered expected or typical under “normal” conditions. Producers who suffer livestock losses in 2015 must file both of the following:

- A notice of loss the earlier of 30 calendar days of when the loss was apparent or by January 30, 2016
- An application for payment by January 30, 2016.

Additional Information about LIP is available at your local FSA office or online at: www.fsa.usda.gov.

Youth Loans

The Farm Service Agency makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5000.

Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
- Be 10 years to 20 years of age
- Comply with FSA’s general eligibility requirements
- Be unable to get a loan from other sources
- Conduct a modest income-producing project in a supervised program of work as outlined above
- Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision
- Recommendation of a parent or guardian.

Stop by the county office for help preparing and processing the application forms.

Beginning Farmer Loans

FSA assists beginning farmers to finance agricultural enterprises. Under these designated farm loan programs, FSA can provide financing to eligible applicants through either direct or guaranteed loans. FSA defines a beginning farmer as a person who:

- Has operated a farm for not more than 10 years
- Will materially and substantially participate in the operation of the farm

- Agrees to participate in a loan assessment, borrower training and financial management program sponsored by FSA
- Does not own a farm in excess of 30 percent of the county's average size farm.

Additional program information, loan applications, and other materials are available at your local USDA Service Center. You may also visit www.fsa.usda.gov.
