Kenneth Oswald

Sterling Withers

#### State Executive Director:

Michael R. Sullivan

### South Mississippi USDA Information StrikeForce Conferences

*Mississippi's StrikeForce Initiative for Rural Growth and Opportunity*

Currently, 85 percent of our country's persistent poverty counties are in rural America. More than one third of rural Americans, and one in four rural children live in poverty. Kids growing up in families earning twice the poverty threshold are nearly three times as likely as other children to have poor health, are more likely to finish two fewer years of school, and are more likely to earn half as much money in their adult lives. Because of these disparities, USDA agencies (Natural Resources Conservation Service, Farm Service Agency, Risk Management Agency, Food Nutrition Service,

**Next State Committee Meeting:**  
TBD

**Interest Rates:**

90-Day Treasury Bill	.375%
Farm Operating Loans - Direct	2.375%
Farm Ownership Loans - Direct	3.50%
Farm Ownership Loans - Direct Down Payment, Beginning Farmer	1.50%
Emergency Loans	3.375%
Farm Storage Facility Loan (7 year)	1.625%
Farm Storage Facility Loan (10 years)	1.750%
Farm Storage Facility Loan (12 years)	1.875%

Please contact your [local FSA Office](#) for questions specific to your operation or county.

Agricultural Marketing Service, Rural Development, National Agricultural Statistics Service) and local partner organizations will host two USDA Information StrikeForce Conferences. The first conference will be held on **Tuesday, June 21, 2016**, from 9 o'clock a.m. until 3:30 p.m. at the Howard Technology Center 36 Howard Dr. Ellisville, MS 39437. The second conference will be held on **Thursday, June 23, 2016**, from 9 o'clock until 3:30 p.m. at Southwest Community College 1156 College Dr. Summit, MS 39666. Pre-registration is required. To register, please contact Ondine Rudolph at 601.296.1173 Ext. 110 or by email at [ondine.rudolph@ms.udsa.gov](mailto:ondine.rudolph@ms.udsa.gov). The deadline to pre-register is June 14, 2016.

Topics discussed during the conferences include:

- Financial and technical assistance for conservation programs
- Conservation Stewardship Program
- Organic certification and marketing opportunities
- Farm-to-School Program
- Supplemental Nutrition Assistance Program (SNAP)
- National School Lunch Program
- Summer Food Service Program
- Child and Adult Care Food Program, and WIC
- Whole-Farm Revenue Protection Pilot Program
- Livestock Insurance Program
- USDA Microloans
- Livestock Indemnity Program
- The Noninsured Crop Disaster Assistance Program
- Rural Rental Housing Loans
- Water Waste Treatment Programs
- And other USDA programs

---

## ARC, PLC and CTAP Acreage Maintenance

Producers enrolled in Agriculture Risk Coverage (ARC), or Price Loss Coverage (PLC) must protect all cropland and noncropland acres on the farm from wind and water erosion and noxious weeds. Producers who sign ARC county or individual contracts and PLC contracts agree to effectively control noxious weeds on the farm according to sound agricultural practices. If a producer fails to

take necessary actions to correct a maintenance problem on a farm that is enrolled in ARC, or PLC, the County Committee may elect to terminate the contract for the program year.

---

## **Filing CCC-941 Adjusted Gross Income (AGI) Certifications**

Many producers have experienced delays in receiving Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) payments, Loan Deficiency Payments (LDPs) and Market Gains on Marketing Assistance Loans (MALs) because they have not filed form CCC-941, Adjusted Gross Income Certification. LDPs will not be paid until all eligible producers, including landowners who share in the crop, have filed a valid CCC-941.

Producers without a valid CCC-941 certifying their compliance with the average adjusted gross income provisions will not receive payments that have been processed. All farm operator/tenants/owners who have not filed a CCC-941 and have pending payments should IMMEDIATELY file the form with their recording county FSA office. Farm operators and tenants are encouraged to ensure that their landowners have filed the form. FSA has been issuing 2014 ARC/PLC payments, 2015 LDPs and Market Gains.

FSA can accept the CCC-941 for 2014, 2015 and 2016. Unlike the past, producers must have the CCC-941 certifying their AGI compliance before any payments can be issued.

---

## **Reporting Organic Crops**

Producers who want to use the Noninsured Crop Disaster Assistance Program (NAP) organic price and selected the "organic" option on their NAP application must report their crops as organic.

When certifying organic acres, the buffer zone acreage must be included in the organic acreage.

Producers must also provide a current organic plan, organic certificate or documentation from a certifying agent indicating an organic plan is in effect. Documentation must include:

- name of certified individuals
- address
- telephone number
- effective date of certification
- certificate number
- list of commodities certified
- name and address of certifying agent
- a map showing the specific location of each field of certified organic, including the buffer zone acreage

Certification exemptions are available for producers whose annual gross agricultural income from organic sales totals \$5,000 or less. Although exempt growers are not required to provide a written certificate, they are still required to provide a map showing the specific location of each field of certified organic, transitional and buffer zone acreage. Producers reporting transitional crop acreage must provide a certification or written documentation, from a certifying agent, indicating that an organic plan is in effect.

For questions about reporting organic crops, contact your local FSA office. To find your local office, visit <http://offices.usda.gov>.

---

## Update Your Records

FSA is cleaning up our producer record database. If you have any unreported changes of address or zip code or an incorrect name or business name on file they need to be reported to our office. Changes in your farm operation, like the addition of a farm by lease or purchase, need to be reported to our office as well. Producers participating in FSA and NRCS programs are required to timely report changes in their farming operation to the County Committee in writing and update their CCC-902 Farm Operating Plan.

If you have any updates or corrections, please call your local FSA office to update your records.

---

## Farm Storage Facility Loans

FSA's Farm Storage Facility Loan (FSFL) program provides low-interest financing to producers to build or upgrade storage facilities.

The low-interest funds can be used to build or upgrade permanent facilities to store commodities. Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$50,000 can be secured by a promissory note/security agreement and some loans between \$50,000 and \$100,000 will no longer require additional security.

Producers do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

To learn more about the FSA Farm Storage Facility Loan, visit [www.fsa.usda.gov/pricesupport](http://www.fsa.usda.gov/pricesupport) or contact your local FSA county office. To find your local FSA county office, visit <http://offices.usda.gov>.

---

## Borrower Training

Borrower training is available for all Farm Service Agency customers. This training is required for all direct loan applicants, unless the applicant has a waiver issued by the agency.

Borrower training includes instruction in production and financial management. The purpose is to help the applicant develop and improve skills that are necessary to successfully operate a farm and build equity in the operation. It aims to help the producer become financially successful. Borrower training is provided, for a fee, by agency approved vendors. Contact your local FSA Farm Loan Manager for a list of approved vendors.

---

---

## **Direct Loans for Mississippi Producers**

FSA offers direct farm ownership and direct farm operating Loans to producers who want to establish, maintain or strengthen their farm or ranch. FSA loan officers process, approve and service direct loans.

Direct farm operating loans can be used to purchase livestock and feed, farm equipment, fuel, farm chemicals, insurance and other costs including family living expenses. Operating loans can also be used to finance minor improvements or repairs to buildings and to refinance some farm-related debts, excluding real estate.

Direct farm ownership loans can be used to purchase farmland, enlarge an existing farm, construct and repair buildings, and to make farm improvements.

The maximum loan amount for both direct farm ownership and operating loans is \$300,000 and a down payment is not required. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your local FSA office for more information or to apply for a direct farm ownership or operating loan.

---

## **Guaranteed Loan Program**

FSA guaranteed loans allow lenders to provide agricultural credit to farmers who do not meet the lender's normal underwriting criteria. Farmers and ranchers apply for a guaranteed loan through a lender, and the lender arranges for the guarantee. FSA can guarantee up to 95 percent of the loss of principal and interest on a loan. Guaranteed loans can be used for both farm ownership and operating purposes.

Guaranteed farm ownership loans can be used to purchase farmland, construct or repair buildings, develop farmland to promote soil and water conservation or to refinance debt.

Guaranteed operating loans can be used to purchase livestock, farm equipment, feed, seed, fuel, farm chemicals, insurance and other operating expenses.

FSA can guarantee farm ownership and operating loans up to \$1,399,000. Repayment terms vary depending on the type of loan, collateral and the producer's ability to repay the loan. Operating loans are normally repaid within seven years and farm ownership loans are not to exceed 40 years.

Please contact your lender or local FSA farm loan office for more information on guaranteed loans.

---

## **Loans for Targeted Underserved Producers**

FSA has a number of loan programs available to assist applicants to begin or continue in agriculture production. Loans are available for operating type loans and/or to purchase or improve farms or ranches.

While all qualified producers are eligible to apply for these loan programs, FSA has provided priority funding for members of targeted underserved applicants.

A targeted underserved applicant is one of a group whose members have been subjected to racial, ethnic or gender prejudice because of his or her identity as members of the group without regard to his or her individual qualities.

For purposes of this program, targeted underserved groups are women, African Americans, American Indians, Alaskan Natives, Hispanics, Asian Americans and Pacific Islanders.

FSA loans are only available to applicants who meet all the eligibility requirements and are unable to obtain the needed credit elsewhere.
