USDA Accepting Applications to Help Cover Costs for Organic Certification

“USDA is here to help all producers, including those who grow our nation’s organic food and fiber. Many farmers have told us that cost was a barrier to their ability to get an organic certification,” said Zach Ducheneaux, administrator of USDA’s Farm Service Agency (FSA). “By assisting with the costs, this program can help organic farmers get their certification along with the benefits that come with it.”

OCCSP provides cost-share assistance to producers and handlers of agricultural products for the costs of obtaining or maintaining organic certification under the USDA’s National Organic Program. Eligible producers include any certified producers or handlers who have paid organic certification fees to a USDA-accredited certifying agent during the 2021 and any subsequent program year. Producers can be reimbursed for expenses made between Oct. 1, 2020 and Sept. 30, 2021 including application fees, inspection costs, fees related to equivalency agreement and arrangement requirements, travel expenses for inspectors, user fees, sales assessments and postage.

For 2021, OCCSP will reimburse 50% of a certified operation’s allowable certification costs, up to a maximum of \$500 for each of the following categories (or “scopes”):

- crops
- wild crops
- livestock

- processing/handling
- State organic program fees.

Organic farmers and ranchers may apply through an FSA county office or a participating state agency.

This funding will be complemented by an additional \$20 million for organic and transitioning producers through the Pandemic Assistance for Producers initiative. More information on that funding will be available in the coming weeks.

More Information

To learn more about organic certification cost share, please visit the [OCCSP webpage](#), visit usda.gov/organic, or contact your [local USDA Service Center](#).

New to Farming Because of the Pandemic? USDA Can Help

USDA Service Centers across the country, are hearing from people who are interested in more space and working the land and we want to let you know we can help. Are you new to farming because of the pandemic? USDA can help you get started in farming – on everything from helping you register your farm to getting financial assistance and advice.

Get Started with USDA

First, you want to make sure your farm is registered. If you purchased land, it might already be established with USDA's Farm Service Agency (FSA) with a farm number on file. If not, FSA can help you register your farm.

To obtain a farm number, you'll bring an official tax ID (Social Security number or an employer ID) and a property deed. If you do not own the land, bring a lease agreement to your FSA representative to show you have control of the property. If your operation is incorporated or an entity, you may also need to provide proof that you have signature authority and the legal ability to enter into contracts with USDA.

Access to Capital

USDA can provide access to capital through its farm loans, which is a great resource when producers aren't able to get a loan from a traditional lender. Loans can help with purchasing land or equipment or with operating costs, and FSA even offers microloans, which are especially popular among producers with smaller farms. For more information, [check out our Farm Loan Discovery Tool](#).

Conservation Practices

We can help you make conservation improvements to your farm, which are good for your bottom line and your operation. We'll help you develop a conservation plan and apply for financial assistance that'll cover the bulk of the costs for implementing. To learn more about some of the conservation practices that we help producers with, [check out our Conservation at Work Video Series](#).

If you purchase land, and you don't want to farm all of it, you can look at either a conservation easement or managing for native shrubs and grasses through either the Agricultural Conservation Easement Program (ACEP) or Conservation Reserve Program (CRP). Easements are long-term, while a CRP contract is 10-15 years. These are good options for land that is not optimal for production or sensitive lands like wetlands and grasslands.

Additional Resources

Depending on your farm, you may want to look at crop insurance. The USDA's Risk Management Agency provides crop insurance to help you manage risks on your farm. There are [many types of insurance products available](#) for a wide variety of production practices, including organic and sustainable agriculture.

Your local communities also have great resources for farmers including conservation districts, Rural Development, cooperative extensions, and different farming groups. To get started with USDA, contact your local USDA service center.

USDA Announces Pandemic Assistance for Timber Harvesters and Haulers

The U.S. Department of Agriculture (USDA) is providing up to \$200 million to provide relief to timber harvesting and timber hauling businesses that have experienced losses due to COVID-19 as part of USDA's Pandemic Assistance for Producers initiative. Loggers and truckers can apply for assistance through USDA's Farm Service Agency (FSA) July 22 through Oct. 15, 2021. The Pandemic Assistance for Timber Harvesters and Haulers program (PATHH) is administered by FSA in partnership with the U.S. Forest Service.

The Consolidated Appropriations Act, 2021, authorized this critical assistance for the timber industry. Timber harvesting and hauling businesses that have experienced a gross revenue loss of at least 10% during the period of Jan. 1 and Dec. 1, 2020, compared to the period of Jan. 1 and Dec. 1, 2019, are encouraged to apply.

Program Details

To be eligible for payments, individuals or legal entities must be a timber harvesting or timber hauling business where 50% or more of its gross revenue is derived from one or more of the following:

- Cutting timber.
- Transporting timber.
- Processing of wood on-site on the forest land (chipping, grinding, converting to biochar, cutting to smaller lengths, etc.).

Payments will be based on the applicant's gross revenue received from Jan. 1, 2019, through Dec. 1, 2019, minus gross revenue received from Jan. 1, 2020, through Dec. 1, 2020, multiplied by 80%. FSA will issue an initial payment equal to the lesser of the calculated payment amount or \$2,000 as applications are approved. A second payment will be made after the sign-up period has ended based upon remaining PATHH funds.

The maximum amount that a person or legal entity may receive directly is \$125,000.

Applying for Assistance

Loggers and truckers can apply for PATHH beginning on July 22 by completing form FSA-1118, Pandemic Assistance for Timber Harvesters and Haulers Program application, and certifying to their gross revenue for 2019 and 2020 on the application. Additional documentation may be required. Visit farmers.gov/pathh for more information on how to apply.

Applications can be submitted to the FSA office at any USDA Service Center nationwide by mail, fax, hand delivery, or via electronic means. To find a local FSA office, loggers and

truckers can visit farmers.gov/service-locator. They can also call 877-508-8364 to speak directly with a USDA employee ready to offer assistance.

Biden Administration to Invest \$67 Million to Help Heirs Resolve Land Ownership and Succession Issues

U.S. Department of Agriculture (USDA) is providing \$67 million in competitive loans through the new Heirs' Property Relending Program (HPRP), which aims to help agricultural producers and landowners resolve heirs' land ownership and succession issues. Intermediary lenders -- cooperatives, credit unions, and nonprofit organizations -- can apply for loans up to \$5 million at 1% interest once the Farm Service Agency (FSA) opens the two-month signup window in late August.

After FSA selects lenders, heirs can apply directly to those lenders for loans and assistance. Heirs' property issues have long been a barrier for many producers and landowners to access USDA programs and services, and this relending program provides access to capital to help producers find a resolution to these issues.

The Heirs' Property Relending Program is another example of how USDA is working to rebuild trust with America's farmers and ranchers. HPRP is a loan and will need to be repaid as directed by the 2018 Farm Bill.

The program's benefits go far beyond its participants. It will also keep farmland in farming, protect family farm legacies and support economic viability.

Eligible Lenders

To be eligible, intermediary lenders must be certified as a community development financial institution and have experience and capability in making and servicing agricultural and commercial loans that are similar in nature.

If applications exceed the amount of available funds, those applicants with at least 10 years or more of experience with socially disadvantaged farmers that are located in states that have adopted a statute consisting of enactment or adoption of the Uniform Partition of Heirs Property Act (UPHPA) will receive first preference. A list of these states is available at farmers.gov/heirs/relending. A secondary preference tier is established for those that have applications from ultimate recipients already in process, or that have a history of successfully relending previous HPRP funds. When multiple applicants are in the same tier, or there are no applicants in tier 1 or 2, applications will be funded in order of the date the application was received.

Selected intermediary lenders will determine the rates, terms, and payment structure for loans to heirs. Interest rates will be the lowest rate sufficient for intermediaries to cover cost of operating and sustaining the loan.

Additional information for lenders, including how to apply for funding, can be found in the [HPRP final rule](#) (PDF, 387 KB).

Relending to Heirs

Heirs may use the loans to resolve title issues by financing the purchase or consolidation of property interests and financing costs associated with a succession plan. This may also include costs and fees associated with buying out fractional interests of other heirs in jointly-owned property to clear the title, as well as closing costs, appraisals, title searches, surveys, preparing documents, mediation, and legal services.

FSA Implements Set-Aside Loan Provision for Customers Impacted by COVID-19

Set-Aside Delays Loan Payments for Borrowers

USDA's Farm Service Agency (FSA) will broaden the use of the Disaster Set-Aside (DSA) loan provision, normally used in the wake of natural disasters, to allow farmers with USDA farm loans who are affected by COVID-19, and are determined eligible, to have their next payment set aside. In some cases, FSA may also set aside a second payment for farmers who have already had one payment set aside because of a prior designated disaster.

FSA direct loan borrowers will receive a letter with the details of the expanded Disaster Set-Aside authorities, which includes the possible set-aside of annual operating loans, as well as explanations of the additional loan servicing options that are available. To discuss or request a loan payment Set-Aside, borrowers should call or email the farm loan staff at their local FSA county office.

The set-aside payment's due date is moved to the final maturity date of the loan or extended up to twelve months in the case of an annual operating loan. Any principal set-aside will continue to accrue interest until it is repaid. This aims to improve the borrower's cashflow in the current production cycle.

FSA previously announced it was relaxing the loan-making process and adding flexibilities for servicing direct and guaranteed loans to provide credit to producers in need. Direct loan applicants and borrowers are encouraged to contact their local FSA county office to discuss loan making and servicing flexibilities and other needs or concerns. Customers participating in FSA's guaranteed loan programs are encouraged to contact their lender. Information on these flexibilities, and office contact information, can be found on farmers.gov/coronavirus.

FSA will be accepting most forms and applications by facsimile or electronic signature. Some services are also available online to customers with an eAuth account, which provides access to the farmers.gov portal where producers can view USDA farm loan information and certain program applications and payments. Customers can track payments, report completed practices, request conservation assistance and electronically sign documents. Customers who do not already have an eAuth account can enroll at farmers.gov/sign-in.

Applying for Farm Storage Facility Loans

The Farm Service Agency's (FSA) Farm Storage Facility Loan (FSFL) program provides low-interest financing to help you build or upgrade storage facilities and to purchase portable (new or used) structures, equipment and storage and handling trucks.

Eligible commodities include corn, grain sorghum, rice, soybeans, oats, peanuts, wheat, barley, minor oilseeds harvested as whole grain, pulse crops (lentils, chickpeas and dry peas), hay, honey, renewable biomass, fruits, nuts and vegetables for cold storage facilities, floriculture, hops, maple sap, rye, milk, cheese, butter, yogurt, meat and poultry (unprocessed), eggs, and aquaculture (excluding systems that maintain live animals through uptake and discharge of water). Qualified facilities include grain bins, hay barns and cold storage facilities for eligible commodities.

Loans up to \$50,000 can be secured by a promissory note/security agreement, loans between \$50,000 and \$100,000 may require additional security, and loans exceeding \$100,000 require additional security.

You do not need to demonstrate the lack of commercial credit availability to apply. The loans are designed to assist a diverse range of farming operations, including small and mid-sized businesses, new farmers, operations supplying local food and farmers markets, non-traditional farm products, and underserved producers.

For more information, contact your local County USDA Service Center or visit fsa.usda.gov/pricesupport.

Foreign Buyers Notification

The Agricultural Foreign Investment Disclosure Act (AFIDA) requires all foreign owners of U.S. agricultural land to report their holdings to the Secretary of Agriculture. Foreign persons who have purchased or sold agricultural land in the county are required to report the transaction to FSA within 90 days of the closing. Failure to submit the [AFIDA form](#) could result in civil penalties of up to 25 percent of the fair market value of the property. County government offices, realtors, attorneys and others involved in real estate transactions are reminded to notify foreign investors of these reporting requirements. The data gained from these disclosures is used in the preparation of periodic reports to the President and Congress concerning the effect of such holdings upon family farms and rural communities. Click [here](#) for more information on AFIDA.

Know your Final Planting Dates

All producers are encouraged to contact their local FSA office for more information on the final planting date for specific crops. The final planting dates vary by crop, planting period and county so please contact your local FSA office for a list of county-specific planting deadlines. The timely planting of a crop, by the final planting date, may prevent loss of program benefits.

Noninsured Crop Coverage Helps Producers Manage Risks

The Farm Service Agency's (FSA) Noninsured Crop Disaster Assistance Program (NAP) helps you manage risk through coverage for both crop losses and crop planting that was prevented due to natural disasters. The eligible or "noninsured" crops include agricultural commodities not covered by federal crop insurance.

You must be enrolled in the program and have purchased coverage for the eligible crop in the crop year in which the

loss incurred to receive program benefits following a qualifying natural disaster.

NAP Buy-Up Coverage Option

NAP offers higher levels of coverage, from 50 to 65 percent of expected production in 5 percent increments, at 100 percent of the average market price. Buy-up levels of NAP coverage are available if the producer can show at least one year of previously successfully growing the crop for which coverage is being requested.

Producers of organics and crops marketed directly to consumers also may exercise the "buy-up" option to obtain NAP coverage of 100 percent of the average market price at the coverage levels of between 50 and 65 percent of expected production.

NAP basic coverage is available at 55 percent of the average market price for crop losses that exceed 50 percent of expected production.

Buy-up coverage is not available for crops intended for grazing.

NAP Service Fees

For all coverage levels, the NAP service fee is the lesser of \$325 per crop or \$825 per producer per county, not to exceed a total of \$1,950 for a producer with farming interests in multiple counties.

NAP Enhancements for Qualified Military Veterans

Qualified veteran farmers or ranchers are eligible for a service fee waiver and premium reduction, if the NAP applicant meets certain eligibility criteria.

Beginning, limited resource and targeted underserved farmers or ranchers remain eligible for a waiver of NAP service fees and premium reduction when they file form CCC-860, *“Socially Disadvantaged, Limited Resource and Beginning Farmer or Rancher Certification.”*

For NAP application, eligibility and related program information, contact your local County USDA Service Center or visit fsa.usda.gov/nap.
