Fax: 855-778-8909

#### **State Executive Director:**

Gary H. Groves

#### **State Committee:**

Bonnie Wenger, Chair

George Greig

### Additional Commodities Eligible for Coronavirus Food Assistance Program

U.S. Secretary of Agriculture Sonny Perdue announced an initial list of additional commodities that have been added to the Coronavirus Food Assistance Program (CFAP), and that the U.S. Department of Agriculture (USDA) made other adjustments to the program based on comments received from agricultural producers and organizations and review of market data. Producers will be able to submit applications that include these commodities on Monday, July 13, 2020. USDA's Farm Service Agency (FSA) is accepting through Aug. 28, 2020, applications for CFAP, which helps offset price declines and additional marketing costs because of the coronavirus pandemic. USDA expects additional eligible commodities to be announced in the coming weeks.

USDA collected comments and supporting data for consideration of additional commodities through June 22, 2020.

#### **Changes to CFAP include:**

Doug Graybill

Barron (Boots) Hetherington

Bill Hoover

**Division Chiefs:**

Rebecca Csutoras

**Farm Programs**

David Poorbaugh

**Farm Loan Programs**

To find contact information for your local office go to [www.fsa.usda.gov/pa](http://www.fsa.usda.gov/pa)

- Adding the following commodities: alfalfa sprouts, anise, arugula, basil, bean sprouts, beets, blackberries, Brussels sprouts, celeriac (celery root), chives, cilantro, coconuts, collard greens, dandelion greens, greens (others not listed separately), guava, kale greens, lettuce – including Boston, green leaf, Lolla Rossa, oak leaf green, oak leaf red and red leaf – marjoram, mint, mustard, okra, oregano, parsnips, passion fruit, peas (green), pineapple, pistachios, radicchio, rosemary, sage, savory, sorrel, fresh sugarcane, Swiss chard, thyme and turnip top greens.
- Expanding for seven currently eligible commodities – apples, blueberries, garlic, potatoes, raspberries, tangerines and taro – CARES Act funding for sales losses because USDA found these commodities had a 5 percent or greater price decline between mid-January and mid-April as a result of the COVID-19 pandemic. Originally, these commodities were only eligible for marketing adjustments.
- Determining that peaches and rhubarb no longer qualify for payment under the CARES Act sales loss category.
- Correcting payment rates for apples, artichokes, asparagus, blueberries, cantaloupes, cucumbers, garlic, kiwifruit, mushrooms, papaya, peaches, potatoes, raspberries, rhubarb, tangerines and taro.

Additional details can be found in the Federal Register in the [Notice of Funding Availability \(NOFA\)](#) and [Final Rule Correction](#) and at [www.farmers.gov/cfap](http://www.farmers.gov/cfap).

Producers have several options for applying to the CFAP program:

- Using an online portal, accessible at [gov/cfap](http://gov/cfap), allows producers with secure USDA login credentials—known as eAuthentication—to certify eligible commodities online, digitally sign applications and submit directly to the local USDA Service Center. New commodities will be available in the system on July 13, 2020.
- Completing the application form using our CFAP Application Generator and Payment Calculator found at [gov/cfap](http://gov/cfap). This Excel workbook allows customers to input information specific to their operation to determine estimated payments and populate the application form, which can be printed, then signed and submitted to their local USDA Service Center. An updated version with the new commodities will be available on the website on July 13, 2020.
- Downloading the AD-3114 application form from [gov/cfap](http://gov/cfap) and manually completing the form to submit to the local USDA Service Center by mail, electronically or by hand delivery to an office drop box. In some limited cases, the office may be open for in-person business by appointment. Visit [farmers.gov/coronavirus/service-center-status](http://farmers.gov/coronavirus/service-center-status) to check the status of your local office.

USDA Service Centers can also work with producers to complete and securely transmit digitally signed applications through two commercially available tools: Box and OneSpan. Producers who are interested in digitally signing their applications should notify their local service centers when calling to discuss the CFAP

application process. You can learn more about these solutions at [farmers.gov/mydocs](https://farmers.gov/mydocs).

### Getting Help from FSA

New customers seeking one-on-one support with the CFAP application process can call 877-508-8364 to speak directly with a USDA employee ready to offer general assistance. This is a recommended first step before a producer engages the team at the FSA county office at their local USDA Service Center.

All other eligibility forms, such as those related to adjusted gross income and payment information, can be downloaded from [farmers.gov/cfap](https://farmers.gov/cfap). For existing FSA customers, these documents are likely already on file.

## One-Time PLC Yield Updates – Deadline September 30

Farm owners have a one-time opportunity to update PLC yields of covered commodities on the farm, regardless of Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) program election. The deadline to request a PLC yield update is September 30, 2020.

The updated yield will be equal to 90 percent of the average yield per planted acre in crop years 2013-2017 (excluding any year where the applicable covered commodity was not planted), subject to the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for the covered commodity. If the reported yield in any year is less than 75 percent of the 2013-2017 average county yield, then the yield will be substituted with 75 percent of the county average yield.

The chart below provides the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for each covered commodity.

Covered Commodity	National Yield Factor
Barley	0.9437
Canola	0.9643
Chickpeas, Large	1.0000
Chickpeas, Small	0.9760
Corn	0.9000
Crambe	1.0000
Flaxseed	1.0000
Grain Sorghum	0.9077
Lentils	1.0000
Mustard Seed	0.9460
Oats	0.9524
Peanuts	0.9273
Peas, Dry	0.9988
Rapeseed	1.0000
Rice, Long	0.9330
Rice, Medium	0.9887

Rice, Temp Japonica	0.9591
Safflower	1.0000
Seed Cotton	0.9000
Sesame Seed	0.9673
Wheat	0.9545

It is the owner's choice whether to update or keep existing PLC yields. If a yield update is not made, then no action is required to maintain the existing PLC yield. An existing or updated PLC yield will be maintained and effective for crop years 2020 through 2023 (life of the 2018 Farm Bill).

PLC yields may be updated on a covered commodity-by-covered commodity basis using FSA form CCC-867.

For more information, reference resources and decision tools, visit [farmers.gov/arc-plc](http://farmers.gov/arc-plc). Contact your local Farm Service Agency Office for assistance – [farmers.gov/service-center-locator](http://farmers.gov/service-center-locator).

## FSA Offers Disaster Assistance for Qualifying Tree, Bush and Vine Losses

If you're an orchardist or nursery tree grower whose experienced losses from natural disasters during calendar year 2020, you must submit a TAP application either 90 calendar days after the disaster event or the date when the loss is apparent.

TAP provides financial assistance to help you replant or rehabilitate eligible trees, bushes and vines damaged by natural disasters.

Eligible tree types include trees, bushes or vines that produce an annual crop for commercial purposes. Nursery trees include ornamental, fruit, nut and Christmas trees that are produced for commercial sale. Trees used for pulp or timber are ineligible.

To qualify for TAP, orchardists must suffer a qualifying tree, bush or vine loss in excess of 15 percent mortality from an eligible natural disaster, plus an adjustment for normal mortality. The eligible trees, bushes or vines must have been owned when the natural disaster occurred; however, eligible growers are not required to own the land on which the eligible trees, bushes and vines were planted.

If the TAP application is approved, the eligible trees, bushes and vines must be replaced within 12 months from the date the application is approved. The cumulative total quantity of acres planted to trees, bushes or vines, for which you can receive TAP payments, cannot exceed 1,000 acres annually.

## USDA Investigates Packages of Unsolicited Seeds from China

USDA is aware that people across the country have received suspicious, unsolicited packages of seed that appear to be coming from China. USDA's Animal and Plant Health Inspection Service (APHIS) is working closely with the Department of Homeland Security's Customs and Border Protection, other federal agencies, and State departments of agriculture to investigate the situation.

USDA urges anyone who receives an unsolicited package of seeds to immediately contact their [State plant regulatory official](#) or [APHIS State plant health director](#). Please hold onto the seeds

and packaging, including the mailing label, until someone from your State department of agriculture or APHIS contacts you with further instructions. Do not plant seeds from unknown origins.

At this time, we don't have any evidence indicating this is something other than a "brushing scam" where people receive unsolicited items from a seller who then posts false customer reviews to boost sales. USDA is currently collecting seed packages from recipients and will test their contents and determine if they contain anything that could be of concern to U.S. agriculture or the environment.

USDA is committed to preventing the unlawful entry of prohibited seeds and protecting U.S. agriculture from invasive pests and noxious weeds. Visit the [APHIS' website](#) to learn more about USDA's efforts to stop agricultural smuggling and promote trade compliance.

---

## USDA Launches New Farmers.gov Features to Help Farmers Hire Workers

U.S. Department of Agriculture (USDA) announced new features on the [farmers.gov](#) website designed to help facilitate the employment of H-2A workers.

USDA's goal is to help farmers navigate the complex H-2A program that is administered by Department of Labor, Department of Homeland Security, and the State Department so hiring a farm worker is an easier process.

The primary new H-2A features on Farmers.gov include:

- A real-time dashboard that enables farmers to track the status of their eligible employer application and visa applications for temporary nonimmigrant workers;
- Streamlining the login information so if a farmer has an existing login.gov account they can save multiple applications tracking numbers for quick look-up at any time;
- Enables easy access to the Department of Labor's (DOL) Foreign Labor Application Gateway (FLAG);
- Allows farmers to track time-sensitive actions taken in the course of Office of Foreign Labor Certification's (OFLC) adjudication of temporary labor certification applications;
- Allowing for farmers to access all application forms on-line.

All information can be found at [www.farmers.gov/manage/h2a](http://www.farmers.gov/manage/h2a).

In 2018, [Secretary Perdue unveiled farmers.gov](#), a dynamic, mobile-friendly public website combined with an authenticated portal where customers can apply for programs, process transactions and manage accounts. With feedback from customers and field employees who serve those customers, [farmers.gov](#) delivers farmer-focused features through an agile, iterative process to deliver the greatest immediate value to America's agricultural producers – helping farmers and ranchers do right, and feed everyone.

---

## The Importance of Responding to NASS Surveys

USDA's National Agricultural Statistics Service (NASS) conducts hundreds of surveys every year and prepares reports covering virtually every aspect of U.S. agriculture.

If you receive a survey questionnaire, please respond quickly and online if possible.

The results of the surveys help determine the structure of USDA farm programs, such as soil rental rates for the Conservation Reserve Program and prices and yields used for the Agriculture Risk Coverage and Price Loss Coverage programs. This county-level data is critical for USDA farm

payment determinations. Survey responses also help associations, businesses and policymakers advocate for their industry and help educate others on the importance of agriculture.

NASS safeguards the privacy of all respondents and publishes only aggregate data, ensuring that no individual operation or producer can be identified.

NASS data is available online at [nass.usda.gov/Publications](http://nass.usda.gov/Publications) and through the searchable [Quick Stats database](#). Watch a video on how NASS data is used at [youtube.com/watch?v=m-4zjnh26io&feature=youtu.be](https://youtube.com/watch?v=m-4zjnh26io&feature=youtu.be).

## FSA is Accepting CRP Continuous Enrollment Offers

The Farm Service Agency (FSA) is accepting offers for specific conservation practices under the [Conservation Reserve Program \(CRP\) Continuous Signup](#).

In exchange for a yearly rental payment, farmers enrolled in the program agree to remove environmentally sensitive land from agricultural production and to plant species that will improve environmental health and quality. The program's long-term goal is to re-establish valuable land cover to improve water quality, prevent soil erosion, and reduce loss of wildlife habitat. Contracts for land enrolled in CRP are 10-15 years in length.

Under continuous CRP signup, environmentally sensitive land devoted to certain conservation practices can be enrolled in CRP at any time. Offers for continuous enrollment are not subject to competitive bidding during specific periods. Instead they are automatically accepted provided the land and producer meet certain eligibility requirements and the enrollment levels do not exceed the statutory cap.

For more information, including a list of acceptable practices, contact your Local County USDA Service Center or visit [fsa.usda.gov/crp](http://fsa.usda.gov/crp).

---

## Applying for Youth Loans

The Farm Service Agency (FSA) makes loans to youth to establish and operate agricultural income-producing projects in connection with 4-H clubs, FFA and other agricultural groups. Projects must be planned and operated with the help of the organization advisor, produce sufficient income to repay the loan and provide the youth with practical business and educational experience. The maximum loan amount is \$5,000.

### Youth Loan Eligibility Requirements:

- Be a citizen of the United States (which includes Puerto Rico, the Virgin Islands, Guam, American Samoa, the Commonwealth of the Northern Mariana Islands) or a legal resident alien
  - Be 10 years to 20 years of age
  - Comply with FSA's general eligibility requirements
  - Be unable to get a loan from other sources
  - Conduct a modest income-producing project in a supervised program of work as outlined above
  - Demonstrate capability of planning, managing and operating the project under guidance and assistance from a project advisor. The project supervisor must recommend the youth loan applicant, along with providing adequate supervision.
-

## August 2020 Interest Rates

### Farm Operating Loans

Farm Operating Loans - Direct	1.375 %
Farm Operating Loans - Microloan	1.375 %

### Farm Ownership Loans

Direct	2.375 %
Microloan	2.375 %
Joint Financing	2.500 %
Direct Down Payment, Beginning Farmer or Rancher	1.500 %

Emergency Loans	2.375 %
-----------------	---------

### Farm Storage Facility Loans

Farm Storage Facility Loans (3 Year Term)	0.250 %
Farm Storage Facility Loans (5 Year Term)	0.250 %
Farm Storage Facility Loans (7 Year Term)	0.500 %
Farm Storage Facility Loans (10 Year Term)	0.625 %
Farm Storage Facility Loans (12 Year Term)	0.750 %

Commodity Loans	1.125 %
