Rhode Island Farm Service Agency

Rhode Island State Office Suite 62

60 Quaker Lane Warwick, RI 02886

Phone: 401-828-3120 Option 1.

www.fsa.usda.gov/ri

State Executive Director: W. Michael Sullivan

State Committee: Doreen Pezza, Judith Carvalho, Kevin Breene, Ellen Puccetti David Frerich

The State Committee meets the second Wednesday of every month subject to change.

Message from the State Executive Director

The Rhode Island producer has had a roller coaster of a year. Exceptionally dry, periodic intense storms for some, high heat, humidity, accompanying high disease pressure and you continue to impress me with how you engage, react and march through to do what you do. Thank you.

Those of you doing direct marketing have had to bend and adjust to get folks safely into your garden centers, farm stands or markets. It continues to be an evolving challenge to adjust to CoVid-19 conditions.

The best and most recent research suggests people are safer in outdoor settings with the improved air movement and easier spacing. Some of the upcoming farm activities are perfect for offering individuals and families safe and wholesome outlets for learning, entertainment and health food and activities. As you plan for these things on the farm you need to remember to have a written formal plan for Covid. No one will grade it or 'approve' it but if an inspector from your community or the State asks for it then you are expected to have a written one. An excellent framework for the required plan can be found at the website:

https://reopeningri.com/wp-content/uploads/2020/05/COVID-19-Control_Plan_Fillable_Template-Final-5.13.20.pdf?189db0&189db0

RI County Office Suite 49:

Anyone feeling a need to have someone review or advise on the plan can certainly reach out and we will be happy to offer some assistance.

Phone: 401-828-3120 Option 2.

County Executive Director: Sheryl Michener

Your friends and colleagues at USDA want to ensure all farms, agricultural operations, wineries and others have the best options to continue to succeed and provide food, beauty, beverage and entertainment in these times.

RI County Committee: Kim Coulter, Joseph Polseno, Glibert Rathbun Jr., John Sousa, George Goulart Jr.

The State via its 'Take it Outside' has created a way to expand the awareness of farm and agritourism events to the general public. If you have done corn maize, pumpkin picking, wine tasting, apple picking, early Christmas tree tagging and the full range of things you all deliver look at the other new website:

The County Committee meets the first Wednesday of every month subject to change.

<https://reopeningri.com/take-it-outside>

Farm Loan Team Suite 49:

It's a straightforward link where you describe and enter your event or offering to the larger digital audience. Take advantage of the free service.

Phone: 401-828-3120 Option 3.

Farm Loan Analyst: Patricia Sullivan

Recent data from DEM Mosquito Program shows there is also some areas of Rhode Island where EEE virus has been found in the mosquito populations. So, make sure you use and provide employees with repellent. We'll all get through these times with our masks, social spacing, insecticide and sunscreen scent and come out the other side stronger.

Program Deadlines:

September 11th, Final day to submit Applications under CFAP.

I'm proud of our farmers, producers and partners that help deliver healthy foods, beverages, beauty and entertainment to our fellow citizens. We at the FSA family are here to help and are as far away as the phone or email.

September 30th, Acreage Reporting deadline for Value Loss Crops such as Aquaculture, Floriculture, Turfgrass sod, Christmas Trees.

W. Michael Sullivan

Rhode Island State Executive Director

September 30th, One-Time PLC Yield Updates Deadline.

October 31st, Deadline to submit applications under OOCSP.

November 2nd, County Committee Election Ballots will be mailed to eligible voters located in Washington County RI.

New USDA Survey to Measure Areas for Improvement

The U.S. Department of Agriculture (USDA) today announced a new annual survey of farmers, ranchers and private forestland owners. The survey will help USDA understand what it is doing well and where improvements are needed, specifically at the Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS) and Risk Management Agency (RMA).

November 20th, Deadline to insure your Perennial Crops, Grass, Mixed Forage, Alfalfa, Perennial Forage under NAP.

A selection of 28,000 producers will receive the survey over the next few weeks, but all farmers are encouraged to take the survey at farmers.gov/survey.

November 20th, Deadline to insure your Apples, Cranberries, Grapes and Peaches with RMA.

This survey is part of the President's Management Agenda. It requires High Impact Service Provider agencies across the federal government, including FSA and NRCS, to conduct annual surveys to measure and respond to areas needing improvement.

December 31st, Deadline to insure your Specialty Type Crops; Honey, Maple sap under NAP.

The survey consists of 20 questions and takes approximately 10 minutes to complete. Responses are confidential, and individual responses will be aggregated. The survey will be open for at least six weeks and will be closed once USDA receives a 30% response rate.

Learn more and take the survey at www.farmers.gov/survey.

USDA Announces More Eligible Commodities for CFAP

Application Deadline Extended to Sept. 11, and Producers Who Have Approved Applications to Receive Final Payments

USDA announced that additional commodities are covered by the Coronavirus Food Assistance Program (CFAP) in response to public comments and data. Additionally, the U.S. Department of Agriculture (USDA) is extending the deadline to apply for the program to September 11th, and producers with approved applications will receive their final payment. After reviewing over 1,700 responses, even more farmers and ranchers will have the opportunity for assistance to help keep operations afloat during these tough times.

Background:

USDA collected comments and supporting data for consideration of additional commodities through June 22, 2020. The following additional commodities are now eligible for CFAP:

- **Specialty Crops** - aloe leaves, bananas, batatas, bok choy, carambola (star fruit), cherimoya, chervil (french parsley), citron, curry leaves, daikon, dates, dill, donqua (winter melon), dragon fruit (red pitaya), endive, escarole, filberts, frisee, horseradish, kohlrabi, kumquats, leeks, mamey sapote, maple sap (for maple syrup), mesculin mix, microgreens, nectarines, parsley, persimmons, plantains, pomegranates, pummelos, pumpkins, rutabagas, shallots, tangelos, turnips/celeriac, turmeric, upland/winter cress, water cress, yautia/malanga, and yuca/cassava.
- **Non-Specialty Crops and Livestock** - liquid eggs, frozen eggs and all sheep. Only lambs and yearlings (sheep less than two years old) were previously eligible.
- **Aquaculture** - catfish, crawfish, largemouth bass and carp sold live as foodfish, hybrid striped bass, red drum, salmon, sturgeon, tilapia, trout, ornamental/tropical fish, and recreational sportfish.

- **Nursery Crops and Flowers** - nursery crops and cut flowers.

Other changes to CFAP include:

- Seven commodities – onions (green), pistachios, peppermint, spearmint, walnuts and watermelons – are now eligible for Coronavirus Aid, Relief, and Economic Stability (CARES) Act funding for sales losses. Originally, these commodities were only eligible for payments on marketing adjustments.
- Correcting payment rates for onions (green), pistachios, peppermint, spearmint, walnuts, and watermelons.

Additional details can be found in the Federal Register in the [Notice of Funding Availability](#) and [Final Rule Correction](#) and at www.farmers.gov/cfap.

Producers Who Have Applied:

To ensure availability of funding, producers with approved applications initially received 80 percent of their payments. The Farm Service Agency (FSA) will automatically issue the remaining 20 percent of the calculated payment to eligible producers. Going forward, producers who apply for CFAP will receive 100 percent of their total payment, not to exceed the payment limit, when their applications are approved.

Applying for CFAP:

Producers, especially those who have not worked with FSA previously, are recommended to call 877-508-8364 to begin the application process. An FSA staff member can help producers start their application during the phone call.

On farmers.gov/cfap, producers can:

- Download the AD-3114 application form and manually complete the form to submit to their local USDA Service Center by mail, electronically or by hand delivery to their local office or office drop box.
- Complete the application form using the CFAP Application Generator and Payment Calculator. This Excel workbook allows customers to input information specific to their operation to determine estimated payments and populate the application form, which can be printed, then signed and submitted to their local USDA Service Center.
- If producers have login credentials known as eAuthentication, they can use the online CFAP Application Portal to certify eligible commodities online, digitally sign applications and submit directly to the local USDA Service Center.

All other eligibility forms, such as those related to adjusted gross income and payment information, can be downloaded from farmers.gov/cfap. For existing FSA customers, these documents are likely already on file.

One-Time PLC Yield Updates – Deadline September 30

Farm owners have a one-time opportunity to update PLC yields of covered commodities on the farm, regardless of Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC) program election. The deadline to request a PLC yield update is September 30, 2020.

The updated yield will be equal to 90 percent of the average yield per planted acre in crop years 2013-2017 (excluding any year where the applicable covered commodity was not planted), subject to the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for the covered commodity. If the reported yield in any year is less than 75 percent of the 2013-2017 average county yield, then the yield will be substituted with 75 percent of the county average yield.

The chart below provides the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for each covered commodity.

Covered Commodity National Yield Factor

Barley	0.9437
Canola	0.9643
Chickpeas, Large	1.0000
Chickpeas, Small	0.9760
Corn	0.9000
Crambe	1.0000
Flaxseed	1.0000
Grain Sorghum	0.9077
Lentils	1.0000
Mustard Seed	0.9460
Oats	0.9524
Peanuts	0.9273
Peas, Dry	0.9988
Rapeseed	1.0000
Rice, Long	0.9330
Rice, Medium	0.9887
Rice, Temp Japonica	0.9591
Safflower	1.0000
Seed Cotton	0.9000

Sesame Seed	0.9673
Soybeans	0.9000
Sunflower Seed	0.9396
Wheat	0.9545

It is the owner's choice whether to update or keep existing PLC yields. If a yield update is not made, then no action is required to maintain the existing PLC yield. An existing or updated PLC yield will be maintained and effective for crop years 2020 through 2023 (life of the 2018 Farm Bill).

PLC yields may be updated on a covered commodity-by-covered commodity basis using FSA form [CCC-867](#).

For more information, reference resources and decision tools, visit farmers.gov/arc-plc. Contact your local Farm Service Agency Office for assistance – farmers.gov/service-center-locator.

FSA Implements Set-Aside Loan Provision for Customers Impacted by COVID-19

USDA's Farm Service Agency (FSA) will broaden the use of the Disaster Set-Aside (DSA) loan provision, normally used in the wake of natural disasters, to allow farmers with USDA farm loans who are affected by COVID-19, and are determined eligible, to have their next payment set aside. In some cases, FSA may also set aside a second payment for farmers who have already had one payment set aside because of a prior designated disaster.

FSA direct loan borrowers will receive a letter with the details of the expanded Disaster Set-Aside authorities, which includes the possible set-aside of annual operating loans, as well as explanations of the additional loan servicing options that are available. To discuss or request a loan payment Set-Aside, borrowers should call or email the farm loan staff at their local FSA county office.

The set-aside payment's due date is moved to the final maturity date of the loan or extended up to twelve months in the case of an annual operating loan. Any principal set-aside will continue to accrue interest until it is repaid. This aims to improve the borrower's cashflow in the current production cycle.

FSA previously announced it was relaxing the loan-making process and adding flexibilities for servicing direct and guaranteed loans to provide credit to producers in need. Direct loan applicants and borrowers are encouraged to contact their local FSA county office to discuss loan making and servicing flexibilities and other needs or concerns. Customers participating in FSA's guaranteed loan programs are encouraged to contact their lender. Information on these flexibilities, and office contact information, can be found on farmers.gov/coronavirus.

FSA will be accepting most forms and applications by facsimile or electronic signature. Some services are also available online to customers with an eAuth account, which provides access to the farmers.gov portal where producers can view USDA farm loan information and certain program applications and payments. Customers can track payments, report completed practices, request conservation assistance

and electronically sign documents. Customers who do not already have an eAuth account can enroll at farmers.gov/sign-in.

USDA Service Centers are open for business by phone appointment only, and field work will continue with appropriate social distancing. While program delivery staff will continue to come into the office, they will be working with producers by phone and using online tools whenever possible. All Service Center visitors wishing to conduct business with the FSA, Natural Resources Conservation Service or any other Service Center agency are required to call their Service Center to schedule a phone appointment. More information can be found at farmers.gov/coronavirus.

USDA Accepting Applications to Help Cover Costs for Organic Certification

USDA's Farm Service Agency (FSA) announced that organic producers and handlers can apply for federal funds to assist with the cost of receiving and maintaining organic certification through the [Organic Certification Cost Share Program](#) (OCCSP). Applications for eligible certification expenses paid between Oct. 1, 2019, and Sept. 30, 2020, are due Oct. 31, 2020.

OCCSP provides cost-share assistance to producers and handlers of agricultural products for the costs of obtaining or maintaining organic certification under the USDA's National Organic Program. Eligible producers include any certified producers or handlers who have paid organic certification fees to a USDA-accredited certifying agent. Eligible expenses for cost-share reimbursement include application fees, inspection costs, fees related to equivalency agreement and arrangement requirements, travel expenses for inspectors, user fees, sales assessments and postage.

Changes in Reimbursement

Due to expected participation levels for fiscal year 2020, FSA revised the reimbursement amount through fiscal year 2023. Certified producers and handlers are now eligible to receive reimbursement for up to 50 percent of the certified organic operation's eligible expenses, up to a maximum of \$500 per scope.

This change is due to the limited amount of funding available and will allow a larger number of certified organic operations to receive assistance. If additional funding is authorized later, FSA may provide additional assistance to certified operations that have applied for OCCSP, not to exceed 75 percent of their eligible costs, up to \$750 per scope.

The changes to the payment calculation and maximum payment amount are applicable to all certified organic operations, regardless of whether they apply through an FSA county office or a participating state agency. State agencies that are interested in overseeing reimbursements to producers and handlers in their states must establish new agreements with FSA for fiscal 2020.

Opportunities for State Agencies

Today's announcement also includes the opportunity for state agencies to apply for grant agreements to administer the OCCSP program in fiscal 2020. State agencies that establish agreements for fiscal 2020 may be able to extend their agreements and receive additional funds to administer the program in future years.

FSA has not yet determined whether an additional application period will be announced for later years for state agencies that choose not to participate in fiscal 2020. States that would like to administer

OCCSP for future years are encouraged to establish an agreement for 2020 to ensure that they will be able to continue to participate.

FSA will accept applications from state agencies for fiscal year 2020 funding for cost-share assistance from Aug. 10, 2020 through Sept. 9, 2020.

State Agencies must submit the Application for Federal Assistance (Standard Form 424 and 424B) electronically via Grants.gov, the Federal grants website, at <http://www.grants.gov>.

More Information

To learn more about organic certification cost share, please visit the [OCCSP webpage](#), view the [notice of funds availability on the Federal Register](#), or contact the [FSA county office](#) at your local USDA Service Center.

To learn more about USDA support for organic agriculture, visit usda.gov/organic.
