New USDA Survey to Measure Areas for Improvement

The U.S. Department of Agriculture (USDA) today announced a new annual survey of farmers, ranchers and private forestland owners. The survey will help USDA understand what it is doing well and where improvements are needed, specifically at the Farm Service Agency (FSA), Natural Resources Conservation Service (NRCS) and Risk Management Agency (RMA).

A selection of 28,000 producers will receive the survey over the next few weeks, but all farmers are encouraged to take the survey at farmers.gov/survey.

This survey is part of the President's Management Agenda. It requires High Impact Service Provider agencies across the federal government, including FSA and NRCS, to conduct annual surveys to measure and respond to areas needing improvement.

The survey consists of 20 questions and takes approximately 10 minutes to complete. Responses are confidential, and individual

responses will be aggregated. The survey will be open for at least six weeks and will be closed once USDA receives a 30% response rate.

Learn more and take the survey at www.farmers.gov/survey.

CRP Emergency Haying and Grazing Provisions

Before haying or grazing eligible acres, producers must submit a request for CRP emergency haying or grazing to FSA and obtain a modified conservation plan from the Natural Resources Conservation Service (NRCS).

Emergency grazing is authorized for up to 90 days and emergency haying is authorized for up to 60 days. Program participants must stop haying and grazing 30 days before the first freeze date in the fall based on the dates established for LFP.

Under the emergency grazing provisions, producers can use the CRP acreage for their own livestock or may grant another livestock producer use of the CRP acreage. The eligible CRP acreage is limited to acres located within the approved county.

For emergency haying, producers are limited to one cutting and are permitted to sell the hay. Participants must remove all hay from CRP acreage within 15 days after baling and remove all livestock from CRP acreage no later than 1 day after the end of the emergency grazing period. There will be no CRP annual rental payment reduction for emergency haying and grazing authorizations.

More Information

For more information on CRP emergency haying and grazing visit <u>fsa.usda.gov/crp</u> or contact your FSA county office. To locate your FSA office, visit <u>farmers.gov/service-locator</u>. For more disaster recovery assistance programs, visit farmers.gov/recover.

Additional Commodities Eligible for Coronavirus Food Assistance Program

U.S. Secretary of Agriculture Sonny Perdue announced an initial list of additional commodities that have been added to the Coronavirus Food Assistance Program (CFAP), and that the U.S. Department of Agriculture (USDA) made other adjustments to the program based on comments received from agricultural producers and organizations and review of market data. Producers will be able to submit applications that include these commodities on Monday, July 13, 2020. USDA's Farm Service Agency (FSA) is accepting through Aug. 28, 2020, applications for CFAP, which helps

offset price declines and additional marketing costs because of the coronavirus pandemic. USDA expects additional eligible commodities to be announced in the coming weeks.

USDA collected comments and supporting data for consideration of additional commodities through June 22, 2020.

Changes to CFAP include:

- Adding the following commodities: alfalfa sprouts, anise, arugula, basil, bean sprouts, beets, blackberries, Brussels sprouts, celeriac (celery root), chives, cilantro, coconuts, collard greens, dandelion greens, greens (others not listed separately), guava, kale greens, lettuce including Boston, green leaf, Lolla Rossa, oak leaf green, oak leaf red and red leaf marjoram, mint, mustard, okra, oregano, parsnips, passion fruit, peas (green), pineapple, pistachios, radicchio, rosemary, sage, savory, sorrel, fresh sugarcane, Swiss chard, thyme and turnip top greens.
- Expanding for seven currently eligible commodities apples, blueberries, garlic, potatoes, raspberries, tangerines and taro CARES Act funding for sales losses because USDA found these commodities had a 5 percent or greater price decline between mid-January and mid-April as a result of the COVID-19 pandemic. Originally, these commodities were only eligible for marketing adjustments.
- Determining that peaches and rhubarb no longer qualify for payment under the CARES Act sales loss category.
- Correcting payment rates for apples, artichokes, asparagus, blueberries, cantaloupes, cucumbers, garlic, kiwifruit, mushrooms, papaya, peaches, potatoes, raspberries, rhubarb, tangerines and taro.

Additional details can be found in the Federal Register in the Notice of Funding Availability (NOFA) and Final Rule Correction and at www.farmers.gov/cfap.

Producers have several options for applying to the CFAP program:

- Using an online portal, accessible at <u>gov/cfap</u>, allows producers with secure USDA login credentials—known as eAuthentication—to certify eligible commodities online, digitally sign applications and submit directly to the local USDA Service Center. New commodities will be available in the system on July 13, 2020.
- Completing the application form using our CFAP Application Generator and Payment
 Calculator found at <u>gov/cfap</u>. This Excel workbook allows customers to input information
 specific to their operation to determine estimated payments and populate the application
 form, which can be printed, then signed and submitted to their local USDA Service
 Center. An updated version with the new commodities will be available on the website on
 July 13, 2020.
- Downloading the AD-3114 application form from gov/cfap and manually completing the form
 to submit to the local USDA Service Center by mail, electronically or by hand delivery to an
 office drop box. In some limited cases, the office may be open for in-person business by
 appointment. Visit farmers.gov/coronavirus/service-center-status to check the status of your
 local office.

USDA Service Centers can also work with producers to complete and securely transmit digitally signed applications through two commercially available tools: Box and OneSpan. Producers who are interested in digitally signing their applications should notify their local service centers when calling to discuss the CFAP application process. You can learn more about these solutions at farmers.gov/mydocs.

Getting Help from FSA

New customers seeking one-on-one support with the CFAP application process can call 877-508-8364 to speak directly with a USDA employee ready to offer general assistance. This is a recommended first step before a producer engages the team at the FSA county office at their local USDA Service Center.

All other eligibility forms, such as those related to adjusted gross income and payment information, can be downloaded from <u>farmers.gov/cfap</u>. For existing FSA customers, these documents are likely already on file.

One-Time PLC Yield Updates – Deadline September 30

Farm owners have a one-time opportunity to update PLC yields of covered commodities on the farm, regardless of Agriculture Risk Coverage (ARC) and Price Loss Coverage (PLC)program election. The deadline to request a PLC yield update is September 30, 2020.

The updated yield will be equal to 90 percent of the average yield per planted acre in crop years 2013-2017 (excluding any year where the applicable covered commodity was not planted), subject to the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for the covered commodity. If the reported yield in any year is less than 75 percent of the 2013-2017 average county yield, then the yield will be substituted with 75 percent of the county average yield.

The chart below provides the ratio obtained by dividing the 2008-2012 average national yield by the 2013-2017 average national yield for each covered commodity.

Covered CommodityNational Yield Factor

Barley	0.9437
Canola	0.9643
Chickpeas, Large	1.0000
Chickpeas, Small	0.9760
Corn	0.9000
Crambe	1.0000
Flaxseed	1.0000
Grain Sorghum	0.9077
Lentils	1.0000
Mustard Seed	0.9460
Oats	0.9524

Peanuts	0.9273
Peas, Dry	0.9988
Rapeseed	1.0000
Rice, Long	0.9330
Rice, Medium	0.9887
Rice, Temp Japonica	0.9591
Safflower	1.0000
Seed Cotton	0.9000
Sesame Seed	0.9673
Soybeans	0.9000
Sunflower Seed	0.9396
Wheat	0.9545

It is the owner's choice whether to update or keep existing PLC yields. If a yield update is not made, then no action is required to maintain the existing PLC yield. An existing or updated PLC yield will be maintained and effective for crop years 2020 through 2023 (life of the 2018 Farm Bill).

PLC yields may be updated on a covered commodity-by-covered commodity basis using FSA form CCC-867.

For more information, reference resources and decision tools, visit <u>farmers.gov/arc-plc</u>. Contact your local Farm Service Agency Office for assistance – <u>farmers.gov/service-center-locator</u>.

USDA Announces Flexibilities for Producers Filing 'Notice of Loss' for Failed, Prevented Planted AcresHeading 5 Here

The U.S. Department of Agriculture (USDA) is providing additional flexibilities for producers to file on acres with failed crops or crops that were prevented from planting because of extreme weather events. USDA's Farm Service Agency (FSA) is adding these flexibilities for *Notice of Loss* on both insured and uninsured crops to enable Service Centers to best assist producers.

Filing for Prevented Planted Acres

For insured crops, producers who timely filed a prevented planted claim with the reinsurance company but filed a *Notice of Loss* (CCC-576) form after the deadline will be considered timely filed for FSA purposes. FSA can use data from the Risk Management Agency (RMA) for accepting the report of prevented planting with FSA. If the information is not available through RMA, the producer

may also provide proper evidence to FSA that the prevented planted claim was timely filed with the reinsurance company.

For uninsured crops, producers may start a *Notice of Loss* (CCC-576) by calling their FSA county office, or they may print and complete the *Notice of Loss* (CCC-576) form from home and send to their county office. For prevented planted acreage, *Notice of Loss* forms mailed to the FSA office must be postmarked by the final acreage reporting date in the county to be considered timely filed. For all prevented planted cases, the *Report of Acreage* (FSA-578) form and the completed and signed *Notice of Loss* (CCC-576) **must** be filed by the applicable acreage reporting date.

Filing for Failed Acres

For failed acreage of uninsured crops, the *Notice of Loss* (CCC-576) must be completed, signed and verified before the disposition of the crop.

When to File a 'Notice of Loss'

A *Notice of Loss* cannot be filed for a crop before the final planting date, but it can be filed before completing the crop acreage report.

More Information

Producers who miss FSA's <u>July 15 acreage reporting deadline</u> will not face a late filing fee if filed within a month of the deadline.

For questions, please contact your FSA county office. To locate your FSA county office at your Service Center, visit farmers.gov/service-center-locator.

FSA Outlines MAL and LDP Policy

The 2018 Farm Bill extends loan authority through 2023 for Marketing Assistance Loans (MALs) and Loan Deficiency Payments (LDPs).

MALs and LDPs provide financing and marketing assistance for wheat, feed grains, soybeans, and other oilseeds, pulse crops, rice, peanuts, cotton, wool and honey. MALs provide you with interim financing after harvest to help you meet cash flow needs without having to sell your commodities when market prices are typically at harvest-time lows. A producer who is eligible to obtain a loan, but agrees to forgo the loan, may obtain an LDP if such a payment is available. Marketing loan provisions and LDPs are not available for sugar and extra-long staple cotton.

FSA is now accepting requests for 2019 MALs and LDPs for all eligible commodities after harvest. Requests for loans and LDPs shall be made on or before the final availability date for the respective commodities.

Commodity certificates are available to loan holders who have outstanding nonrecourse loans for wheat, upland cotton, rice, feed grains, pulse crops (dry peas, lentils, large and small chickpeas), peanuts, wool, soybeans and designated minor oilseeds. These certificates can be purchased at the posted county price (or adjusted world price or national posted price) for the quantity of commodity under loan, and must be immediately exchanged for the collateral, satisfying the loan. MALs redeemed with commodity certificates are not subject to Adjusted Gross Income provisions.

To be considered eligible for an LDP, you must have form CCC-633EZ, Page 1 on file at your local FSA Office before losing beneficial interest in the crop. Pages 2, 3 or 4 of the form must be submitted when payment is requested.

Marketing loan gains (MLGs) and loan deficiency payments (LDPs) are no longer subject to payment limitations, actively engaged in farming and cash-rent tenant rules.

Adjusted Gross Income (AGI) provisions state that if your total applicable three-year average AGI exceeds \$900,000, then you're not eligible to receive an MLG or LDP. You must have a valid CCC-941 on file to earn a market gain of LDP. The AGI does not apply to MALs redeemed with commodity certificate exchange.

For more information and additional eligibility requirements, contact your local County USDA Service Center at fsa.usda.gov.
